www.tri-star.co.uk

A durable solution that makes your hot food look great in all circumstances. Food delivery services are booming and in a competitive market Fastpac ensures premium presentation with fantastic heat retention.

Made from advanced materials, they have the perfect thickness to ensure the best rigidity as well as leakproof transport of food in all delivery conditions. Fastpac trays contain an organically sourced mineral, Talc, that gives improved performance. This mineral increases thermal stability and barrier effect, brings excellent strength and stiffness and gives higher heat insulation.

Stagione Containers

Stagione® offers three different sizes - 500ml, 750ml and 1000ml - in a unique rolled-top construction, that features the same top out size for ease of merchandising and stacking. A tight fitting 'one size fits all' lid, in three material options; Kraft PP lined paperboard and plug fit anti-mist rPET and PP complete this innovative range. All bases and PP Lids are suitable for microwaving and hot hold and freezing, and the rPET lid is suitable for chilled food to go and the freezer and is anti-mist.

Compostable BePulp Bowls

BePulp Sustainable Solutions are a range of innovative and compostable products of plant origin. BePulp is the better choice in sustainable packaging as it combines sustainable design with exceptional performance, using pulp that comes from fibres of plant origin, natural materials which are both abundant and renewable. The entire range offers many practical options and is certified for composting according to regulation EN13432.

This sustainable packaging is table-ready and designed to withstand any condition, from freezers to ovens. With optimal lid fit and leak resistance it's never been easier to go green with 100% compostable food packaging.
