Welcome to Fay's Studio! Whether you are a new or returning customer Fay is delighted that you are taking a moment to browse her greeting card catalogue and hopes that you will find lots to offer your customers for Spring/Summer and Autumn/Winter.

Fay's Studio was born out of Fay's love for illustration having completed an Honours Degree in 2005. In an effort to launch her greeting card company Fay turned to the Prince's Trust charity which provided her all the tools she needed to begin her business enterprise.

Now a decade into her business, Fay's Studio specialises in high quality wildlife greeting cards, delicately hand-illustrated and produced in the UK using only FSC certified paper and board and recyclable packaging. In 2020 Fay's Studio is committed to using only sustainable biodegradable glitter to finish their cards.

The 'In The Wild' collection is an open blank range so that the customer can send a card with their own personal greetings.

There is no minimum order allowing you to choose a small selection, but Fay can also cater for orders of thousands.

You can now register as a trade customer via the website, where you will be given access to the full trade site.
