

COMPANY PROFILE

Corincraft provides a comprehensive, end-to-end service for the design, development and manufacturing of fine fragrance and home fragrance products.

From the outset, we *listen*—developing an understanding of your product and brand objectives. Drawing then on our extensive industry experience, we begin developing and sampling until you are completely satisfied. Throughout the process, strict critical path and QA procedures are in place to ensure that your product is delivered on time, on budget and will meet or exceed your expectations

Corincraft offers:

Over thirty years' experience of creating innovative, distinctive products and cohesive brands.

Manufacturing in the UK and with established exclusive partners around the world.

Personal service. Corincraft was established by Robin Taylor in 1999 and has been the force behind many key product launches for blue chip companies such as Marks & Spencer, Yves Rocher, Boots, The Body Shop and Avon Cosmetics as well as smaller organisations.

Contact Robin on 07771855869 or robin@corincraft.com to discuss your next project. We are always happy to provide feedback and suggestions, guideline costings or detailed quotes without obligation
