ourstory

Korbond was established in 1956, over 9,000 miles away in Australia, by an engineer called Henry Korsi. In the early days, Henry and his wife, a chemist, developed and manufactured products for the garment and shoe trade. Henry established the business with strong core values at its heart, and a strategy focussed on delivering retailers high quality products supported by excellent service.

Today, over 65 years on, we are the UK's leading industry expert in sourcing and supplying retailers with haberdashery, clothes care, crafting tools and accessories, and storage solutions. We have long established trading relationships across a wide range of retail channels and offer every customer an end to end category management solution.

Utilising our decades of experience in creating, sourcing and supplying haberdashery, craft and clothes care, we have expanded into supplementary categories including homeware, gift, promotion and travel accessories.

yarn

Korbond 100% acrylic DK yarns are manufactured using the same process as wool, a single filament folded together. By mimicking the production of natural fibres with manmade fibres we ensure a well-constructed machine washable yarn that is lightweight and hypoallergenic while durable and adaptable for an array of projects.

Introducing new Chunky and Twinkle variations to the category and an expansion in the DK and Baby DK ranges.
