A VERY WARM WELCOME TO DIVINE DISTRIBUTION'S VOLUME 14 BROCHURE

With the help of my fantastic team, I am delighted to once again bring you our beautiful Spanish Ceramics from the heartland of Southern Spain.

We continue to work with our small family-run businesses in the Andalucía regions where the tradition of making these exquisite ceramics is passed down through generations alongside the authenticity of true Spanish cookware.

Our ever-popular Tunisian Olive Wood is a very big part of our business ethos in knowing that all the wood is sustainably sourced and with every piece individual in both design and texture.

With our 100% Recycled Glass ranges and Outdoor Living Garden Pots and Planters, Divine Distribution offers you a wide and exclusive selection of Gifts, Home, Garden, and Kitchen products to enhance your individual businesses.

Wishing you continued good health and success.

Best wishes,

Andrew
MD Divine Distribution

Blue & White Fish

Hand-Painted

Signature.

All our Signature ceramics are made in a very specific and stylish way. The terracotta clay is dipped in white base clay paint prior to the artist drawing and carving the design into the white coating and into the clay. Each piece is then hand-painted with rich and contrasting colours and individually signed by the artist.

Microwave & dishwasher safe.

Tea Light Holders

Home Fragrance

Soy wax/Alcohol free/
Kraft gift boxed

Our exclusive Verano Home Fragrance Luxury Candles and Diffusers have been lovingly created and hand poured in the UK, bringing stylish, beautiful and unique scents to the home. The natural soy wax used in our candles is clean burning, releasing no harmful toxins. "Kinder to the home and kinder to the environment." Screen printed with our exclusive design of wild golden leaves which is also embossed into the "kraft" decorative gift boxes, we are proud to introduce them to you and your customers.

 **HAND Poured IN THE UK SOY WAX**

Recycled Glass

Glass recycling helps the environment by using considerably less energy to melt the glass than that needed to melt raw materials.
