

# Rocket Bang

Rocket Bang is an exciting, family friendly firework themed card game.

Rocket Bang is a modern twist on the classic card game 'sevens', a great card game that requires a fair amount of careful strategy to win. We've wrapped the game up in a colourful pack of firework themed cards that add an additional exciting element that opens the game up to younger players. Instead of the four suits of a traditional deck of cards, we have eight different coloured sets of fireworks.

It's a simple but fun game that works well for younger players but also has enough strategy to make it fun for older players too.

We designed the game to make a great classic card game appeal to a younger audience and introduce them to the world of card games. It's printed in the UK on high quality plastic coated cards so that it lasts well, and we supply it in a neat little tin so it's perfect to drop into a bag for impromptu entertaining.

## Spinning Poodle Games

At Spinning Poodle Games, we are keen to get people off their screens and playing old fashioned games together. We have created a range of fun and exciting family games, loosely based on old classics but with a modern twist. It's our hope that we can get the world laughing and playing together and basically cheer everyone up a bit.
