Hippychick Hipseat

The Hipseat is a back supporting belt that helps you carry your child naturally and comfortably. Recommended by osteopaths, chiropractors and health care professionals – it can help prevent long term damage to your back by giving the correct support to your spine. Suitable from 6 months to 3 years, the Hipseat distributes your child's weight around your waist to stop your back bending or twisting.

Hippychick Feeding Pillow

The Hippychick Feeding Pillow is an essential support for breastfeeding and bottle feeding. It can also be used later as a baby nest for helping babies to sit up and for tummy time. It is ideal for relieving pregnancy backache or placing between knees and ankles to achieve a more comfortable sleeping position.

Hippychick Cellular Blanket

A modern twist on a classic essential, the cellular baby blanket. Made from 100% cotton, hand-picked and crafted in India, the open weave cell construction of the blanket traps air which helps keep your baby warm in winter and cool in the summer.
