froddo.com

01

100% of energy used in the production process are from renewable energy sources. We're also using energy efficient machines and LED lighting.

02

Our packaging is 100% recyclable.

03

We take care of the environment systematically and transparently, in accordance with ISO standards.

RESPECT FOR NATURE

04

We support the development of the local community through numerous humanitarian projects, sports and healthy children's development.

SOCIAL RESPONSIBILITY

05

Our employees are the energy that drives us forwards. More than 500 families from our local community are part of the Froddo family.

06

Developed and produced in our own factory in Croatia, our shoes are made to **ISO standards** and all legal requirements in controlled conditions.

07

As a big family we take care of each other, especially in terms of health and safety for our employees.

08

With 46 workers with disabilities, our workforce is inclusive.

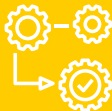

SUSTAINABILITY

09

We continuously invest in our employees, new technologies, product development and quality. Women occupy more than 80 percent of top management positions in company

10

Carefully designed and handmade shoes produced with more than 80 operations within the shoe-making process.

SUSTAINABLE PRODUCT

11

We create healthy and safe products with certified top quality natural materials of European origin (in accordance with **REACH standards**) and without harmful substances.

12

Our material suppliers use environmentally friendly and efficient processes that meet **ECARF, Leather Working Group and IVN Standards**.
