Get inspired with our lifestyle shots giving you display ideas and product groupings that are sure to wow. It couldn't be easier to create your perfect home with the Hestia collection.

Serene Space

Serene Space by HESTIA® embraces all-out glamour. Tonal greys, clean lines and sparkling detail spell modern, hotel style sophistication with a glitzy twist. A home range inspired by the Hollywood Golden Era and Art Deco decadence.

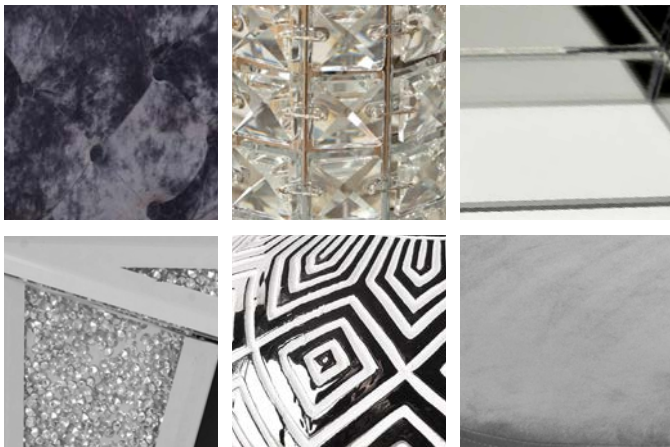

Inspiration

Tonal greys are a staple of home decor which never go out of fashion. Velvet finishes and gem stone accents add a touch of glamour and luxury, which is the perfect compliment to the minimalist palette of this trend. This year has seen us all leading very stripped back lives so adding a more glamorous, boutique style to the home is important for many. This trend is all about providing a sense of occasion in the every day.

The Trends

Greyscale colour palette with silver and mirrored accents.
Crushed velvets, metallic thread and animal prints.
Luxury detailing like studs, beading and pleating.
Accent furniture in modern shapes with an ornate twist.
Statement centrepieces.
High shine finishes.

Two timeless classics combine in this mini-trend. Always a staple print in the fashion world, leopard print combines with glossy silver here to bring the class and style of the runway into your home. Shake up a more traditional home interior with a splash of bold print, made even sleeker by the silver colour palette.

Happy Place

Happy Place by HESTIA® is a celebration of natural materials and craftsmanship in contemporary homeware. A neutral, earthy colour pallet keeps this look uncomplicated and clean, whilst encouraging focusing on the different textures and materials running throughout.

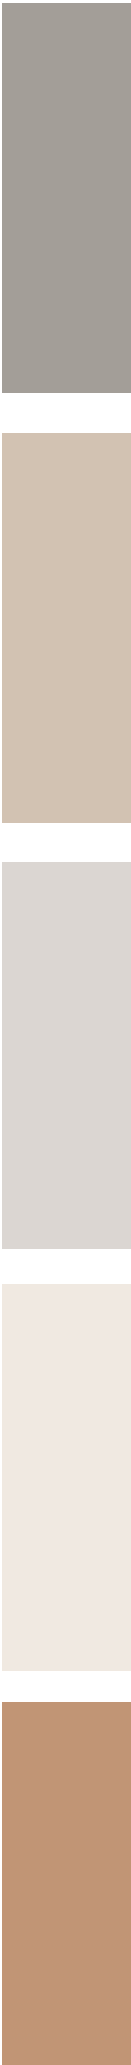

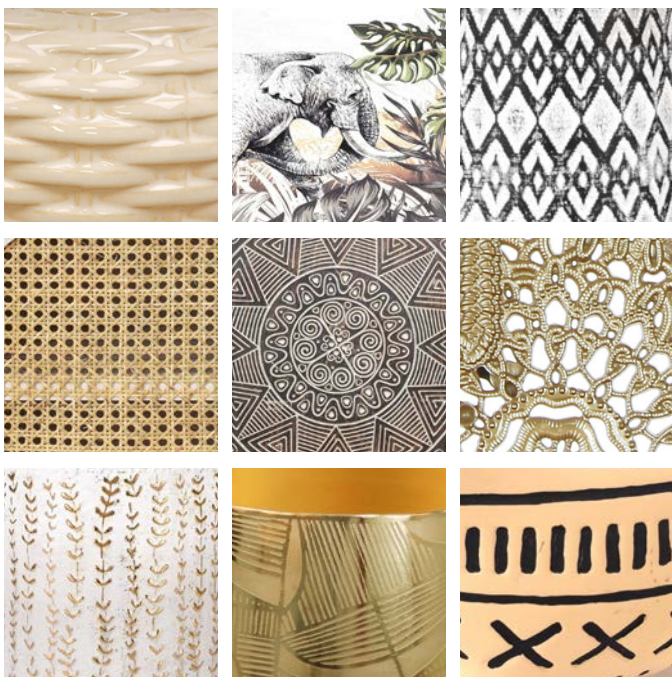

Inspiration

This trend is all about earthy tones and natural textures, taking influence from African patterns for some more intricate decorative pieces. An evolution of the minimalist bohemian style of home decor, Happy Place has a warm and spacious feel, with some rich gold accents and animal motifs running throughout. Texture is key here, with wood and rattan taking the forefront and those African influences especially popular in a year when travel has been scarce.

The Trends

Soothing palette of neutrals and terracotta.
Natural materials and textures with a hand-crafted feel.
Safari inspired prints with leaf and elephant motifs.
Monochrome surface prints inspired by African wildlife.
Cane and wicker furniture pieces.
Carved or textured wood.

Mini Trend - Animals

Animals - and in particular, elephants - are a recurring theme throughout. Appearing across the range from planters and statues to lamps and door stops, they provide a sense of the exotic to the home. Combined in creative ways with functional homeware, animals add a quirky touch to a lamp or tealight holder and let the personality of your home shine through. Both in 2D prints and 3D sculpted pieces, they add to the safari vibes of the Savanna trend.

Mini Trend - Mind & Spirit

The mindfulness trend is here to stay as people adopt a more spiritual and conscious approach to life. Especially in the turbulence of last 12 months, there is an eagerness to create a calm and grounded space within the home. Buddhist influences come into play, with meditation being an important practice to more and more people who are eager to connect to themselves and nature.

Heatwave

Heatwave by HESTIA® is a glamorous, feminine tropical escape. Luxury touches like gold detailing and velvets are combined with soft pinks, greens and tropical motifs to keep things looking fresh and fun.

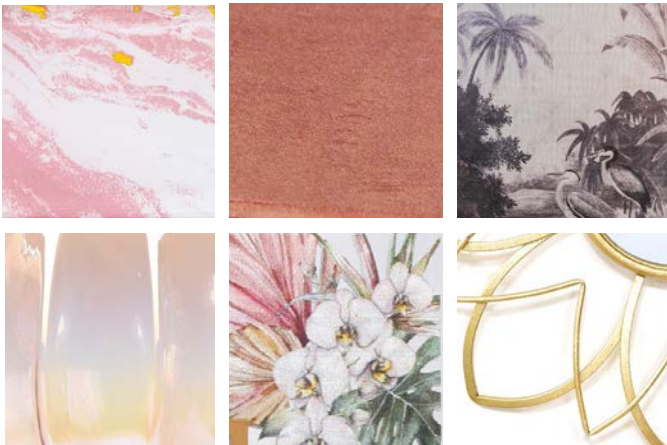

Inspiration

Soft tropical inspiration brings sunrise on the beach to mind, with maximalist prints and rose gold finishes. Pastel tones are key, with a luxurious feel brought by pearlised glass and embellished details. Hints of art deco styling add to the glamour and create compelling juxtapositions between the organic shapes of the florals and clean geometric designs. Velvet is key in this trend, adding texture in contrast to the smooth glass finish of more decorative pieces.

The Trends

Soft feminine colour palette of blushes, greens and neutrals. Exotic wildlife and plants feature throughout. Luxurious detail like tufted upholstery, gold chair legs, velvet. A maximalist, glamorous take on the tropical trend. Shapes and styles which give a nod to the art deco period.

Key Trend - Flowers & Foliage

Floral patterns are the core of this trend but are used in a considered way to bring balance and avoid becoming too kitschy. Debossed onto ceramic or printed onto glass, these prints gain a subtlety that provides the classic country feel but doesn't overwhelm the space.

Mini Trend - Seaside

Walks on the beach and coastal getaways are conjured up through shell details, coral textures and decorative pebble pieces. Whitewashed wood is brought into plaques and frames and nautical motifs appear throughout.

Mini Trend – Marble

The cool colours and rich texture of marble sits across a selection of functional and decorative homeware pieces. It is perfectly in keeping with this trend, which focuses on natural materials and a stripped back colour scheme.
