# WELCOME

**WELL, WHAT A COUPLE OF YEARS!** At the time of writing the ridiculous freight prices show no sign of falling. Normal goods has seen a rise per container from around \$2,500 to \$18,000 and hazardous goods (which most of our goods fall in to) has seen a rise from \$9,000 to \$36,000. Whilst some prices have had to rise we have kept everything to the bare minimum – and everything is under constant review. Shipping space is also volatile but we are starting to see more containers coming through.

**WHATS NEW?** We are at the final stages of updating our new website and quite soon you will have the opportunity to purchase online and view purchase history etc etc. This is taking longer than expected as developers seem to be under pressure but (again, at the time of writing) we are almost there.

**NEW PRODUCTS** - It would seem everyone is going sparkler crazy and demand has been off the scale, we are launching FIVE new sparkler sizes to run alongside our existing range, we also have some new Ice Fountains including glow stick varieties.

**WHY BUY FROM TRAFALGAR?** Trafalgar Group Trading has one goal – to put the sparkle into people lives! Life should be fun and so should business. We are obsessed with product innovation, we are only interested in unique products and or products that we believe are manufactured better than our competitors, whether that is a cleaner burning Ice Fountain or innovative packaging.

**PACKAGING** – Presentation is everything, we like to think our packaging is top of the pops. Where feasible we have packed some products in retail display cartons, we have also made video display units for our amazing Crackling Balls of Fire and Spinning Crackling Saucers, these video units have really seen them fly.

**SPARKLERS, ICE FOUNTAINS AND OTHER HAZARDOUS STUFF** – Here's the thing, ALL of our hazardous products in this brochure are either category F1 or T1, this means that you can sell any of our sparkling products all year without a firework sales licence and they can be positioned anywhere in the store without the need to put them in a protective cabinet

- and ALL of our sparkling goods can be sold to people aged 16 or over, even our fantastic Party Fireworks Selection Box.

# SPARKLERS

There are so many bulking agents that are often added to sparklers, cheap metal filings are just one, when you compare two sparklers you will notice how clean they burn and how much smoke they produce, and you may notice that one has left a nasty residue after being burned, this is almost always a bulking agent. Our sparklers are of the highest quality and our new wooden Sparkle Sticks are going to be a real winner.

There are similar issues with indoor fountains, inferior fountains will be rather smoky and have a fallout of dross. Expensive chemical components can be altered to make them go further, powdered glass, chalk and paper pulp are regularly used to bulk out compositions.

# EXCLUSIVE ECO SPARKLE STICKS™

NO HOT SPARKLER WIRE  
STICK MADE FROM NATURALLY RENEWABLE RESOURCE  
BURNS DOWN TO NOTHING

New and exclusive wooden sparklers! Yes we are full of good ideas.

Our new Eco Sparkle Sticks are like a standard iron sparkler but without the iron. Sparkle Sticks burn down to nothing, all the ash falls on the floor and you are just left with a small wooden handle so there is no hot wire left. Brilliant!

# FIREWORKS SELECTION BOX

Additional extensive testing has resulted in us getting this product classified to a lower hazard than regular outdoor firework selection boxes meaning you can sell these all year round without a firework license. Confused? Please contact us if you require further information or clarification.

## INCREASE SALES WITH OUR VIDEO DISPLAY UNITS

These fantastic Video Counter Display Units really help sell the Crackling Balls of Fire and Spinning Crackling Saucers. Store feedback has been incredible and we cannot recommend them enough.

These Video Display Units are free of charge when you buy 3 cartons (120 units) of product. Buy 3 cartons of Crackling Balls and get a video display, same for the Spinning Saucers, buy 3 cartons (120 units) and get the video display. Once you have them in your store, simply buy more stock as and when you require to top up. Each unit comes with a mains adaptor and work on a motion sensor.

Minimum carriage paid order £150.

Orders under £150 are accepted but will be subject to a £10 delivery charge.

Channel Islands, Scottish Islands, Northern Ireland, Eire – a carriage surcharge may apply.

Credit account customers are required to settle invoices within 30 days.

We accept the following payment methods: Cheque, BACS, Visa, Maestro, or Master Card.

## GLOSSARY

### CAT F1 / T1

Category F1 fireworks and T1 pyrotechnics are items which present a very low hazard and negligible noise level and which are intended for use in confined areas, including fireworks which are intended for use inside domestic buildings. Please note, not all products can be used indoors, please read warning labels or contact us.

Our products can be displayed anywhere in the store, are not required to be kept in a protective cabinet or a separate area and can be sold to any person over 16 years of age.

Our products can be sold all year without the need for a firework sales license.

### NEC

NEC relates to the Net Explosives Content of a firework. Any premises can store up to 5000g of NEC without the need to register for storage with the local authority. If you require to register with your local authority and are unsure of what to do we are happy to help you.

### HAZZARD

The hazards listed refer to the Transport Category for fireworks

1.4 - Substances and article which present no significant hazard.

S - Substance or article so packed or designed that any hazardous effects arising from accidental functioning are confined within the package.
