are drawn with
words, not paint.*

My art is connected to your imagination, to the story you want to be told. Stand back to see the picture, stand close to read the words.

Introduction

Painting Pictures with Words

Welcome to Calligart by Nicole. Each piece of art you will discover here is made entirely of quotes and facts to match the subject of the piece. The artwork is completely unique - sometimes light-hearted and full of humour, sometimes informative, but all of them intricate and complex designs and all created by hand, initially with a pencil sketch and then in ink.

Nicole's products celebrate the best of British: landscapes, heritage, place, and people. Browse our range for cards, stationery, homewares, maps, and more. All the work is innovative, creative, and informative – blending the ancient form of calligraphy with contemporary art.

Calligart by Nicole is a sustainable UK brand working in partnership with British artisans and small UK firms so that the supply chain is as local as possible. Better for you, better for us and better for the planet.
