

Galaxy

Artland's Galaxy range is truly out of this world! This stunning electroplated glass collection has a rich, dark blue, mirrored exterior, through which you can see densely populated constellations of stars made possible by the brilliant gold reflective interior shining through. This combination of colours looks incredible, as the deep blue is offset against the bright gold, and so really makes these glasses come to life!

Comprising Wine Glasses, Gins, Champagne Saucers, DOF Tumblers and Night Light Holders, each glass comes in gift boxed pairs.

Gift Box for Galaxy

Filigree

Filigree once again shows off Artland's design innovation and brings a touch of retro elegance to your table!

Comprising two complementary coloured options, one a delicate lilac and the other a light jasper blue. Each of these colours is on the interior of the glass, whilst the exterior is brought to life with the silver plating.

Filigree features three glasses in each colour, wine, gin balloon and champagne saucer.

Each of the pairs within the range come gift boxed.

Set of 2 Filigree Champagne Saucers Lilac
115x115x190mm / 35cl
ART52111ST2

Gift Box for Filigree Lilac

Peacock

Peacock has received a huge amount of publicity due to its unique look – a fantastically detailed peacock feather design on the exterior of the glass, where the colour gradients from emerald green to a rich turquoise. This is complemented by the mirrored electroplated interior which reflects the feathered pattern within.

Due to the popularity of Peacock the range has grown considerably from its initial launch of just the Wine & Martini glasses. First with the addition of the Flute & Tumbler; then the Gin Glass in 2017, and now the Champagne Saucer and Hurricane Lamp!

ARTLAND®

Set of 2 Peacock Champagne Flutes

ART51185ST2

Peacock Hurricane Lamp
140x140x150mm
ART51189

Gift Box for Set of 2 Peacock Gin Glasses

Midnight Peacock

Inspiration for the Midnight Peacock collection came from the very origins of the beautiful species after which the range is named.

The Midnight Peacock came from specially breeding green peafowls in order to create a desirable creature which was highly opulent and stylish in looks.

The Peacock design is lasered out from the mirrored black exterior, and beautifully highlighted by the rich gold interior which shines through!

Each of the five shapes in the collection are sold as sets of two, and come packed in smart boxes.

ART51196ST2

Gift Box for Set of 2 Midnight Peacock Wine Glasses

Bloom

Bloom is a delicate design, made of fine lines and carefully considered strokes, to ensure the right balance between subtlety and elegance.

The reflective outside of each bowl has a graduated colour palette, as the hue changes from a soft orange to a warm pink.

Detailed into this is the beautiful floral pattern from which Bloom gets its name, and with the help of the mirrored silver finish on the inside of each glass, the bouquet of flowers shines through.

Gift boxed in pairs, Bloom is a stunning addition to the Artland range.

Fiesta

Artland's Fiesta collection fully embraces the colourful and the eclectic.

The design and colour on each glass differ, creating a wonderful 'mix and match' collection.

The decorations range from identifiable to abstract, though all sit perfectly together, working in tandem with the application of blues, yellows and ambers which run throughout.

The bright and brilliant colours are achieved with a mixture of various coloured stems paired with the electroplated bowls, which give them an amazing mirrored finish, both inside and out.

This cocktail party inspired assortment is made up of gift boxed pairs of gins, cocktails and hiball tumblers, along with margarita glasses and a set of 4 shot glasses which have a mixture of the various designs.

ART52164ST4

Gift Box for Fiesta

Tropical Leaves

Artland's Tropical Leaves range is exotic in more ways than one!

There is a huge amount happening within each mouthblown glass. The outside of every bowl has a mirrored silvered finish from which is lasered out a rich foliage of leaves most commonly found in the rainforest! These leaves are made richer still by the soft green metallic interior which glows through the leaf silhouette and really makes it stand out from the silver.

Alongside the six drinking glasses in the range, being a flute champagne, wine glass, gin bowl, champagne saucer, martini glass and tumbler, Tropical Leaves also has within its collection two striking hurricane lamps, which when lit up look even more sensational!

ARTLAND®

Neon

Neon is unlike anything most have seen before.

The bottom of every bowl is decorated with three different colours, each electric hue taking up a third, and seamlessly changing from one to the next.

This is twinned with a crackle effect throughout the coloured area. Which, whilst it seems to run through the glass, can hardly be felt on the surface at all.

Through this combination of several techniques, each mouth blown glass is not only unique, but mesmerising to look at.

Available open stock in Flutes, Wines, Gins and Tumblers.

ARTLAND®

Set of 2 Neon Champagne Flutes

Marine

Taking its inspiration from the deep blue sea, the Marine Collection brings a new look and feel to the Artland range.

Available as either a set of 4 goblets or 4 tumblers, each item is stylishly embossed with sea flora and fauna, with each piece in a different but cleverly co-ordinating colour bringing a tint of the ocean to your table.

Each set comes gift boxed to create an eye catching display.

Gift Box for Set of 4 Marine DOF Tumblers

Highgate

Pressed glass is becoming increasingly popular as due to its robust nature it is ideal for use at home or within the hospitality environment. Not only this, but pressing, rather than blowing glass, allows you to push the complexity of the design. Highgate is a fantastic example of this, where the sloping gradient within the diamond design creates a highly tactile finish.

The colour of all four glasses is within the glass itself, and not sprayed on, making this range safe to use in the dishwasher.

Highgate comes beautifully gift boxed in a set of four colours.

ARTLAND®

Set of 4 Highgate Goblets
90x90x170mm / 35cl

Gift Box for Set of 4 Highgate DOF Tumblers

Liqueur Sets

The assortment of liqueur sets is one of the most recognised and popular ranges from the Artland collection and has helped make the Artland brand so popular.

Each glass is mouth blown and hand crafted in one of the very few factories which still retain the skills to produce these miniature glasses.

The long and short stem liqueurs each have six differently shaped bowls and an assortment of jewel tone colours within the glass, ensuring that no matter how often these delightful glasses are used, the colour can never come off. To further improve the offer, the sets come with a silver coloured tray to make these a wonderful gift.

Sommelier

The designers at Artland have long recognised how good design in glass can help enhance one of the greatest pleasures – the appreciation of fine wines!

From the classic Sommelier carafe, designed to comfortably hold and pour a full bottle of wine, to the more intricate red wine carafe and aerator, or the innovative white wine cooling carafe these are all designed to be both practical and excellent for gifting!

Sitting perfectly alongside the carafes are the Bar Snackers – great for serving nuts and nibbles, these too come gift boxed.
