## WELCOME

What's new? Not sure where to start really.

Most importantly we have revamped our best selling Indoor Fireworks Selection pack and it includes a couple of items that have never been seen before.

We have a whole load of fantastic new Pyro Novelties including two additions to the Mayhem Range – Flash Gordon strobing pellets and Tasmanian Devil spinners - The Tasmanian Devils are creating quite the storm!

New sparklers include colour changing Traffic Lights and Fatso's, arguably the fattest sparkler on planet earth. Our hand held Rainbow Fountains and Strobing Wands are a hit and we have loads of new Ice Fountains

We also have entered the dark side and we are now producing some non pyro party products and we plan to expand on these. First off is our Quicklight Candle range where each candle is attached by a special link so you light one candle for a magical chain reaction where all are lit instantly.

Aside from "Hush Hush" new products for later this year we are currently working on a range of Counter Display units for Sparklers, Mayhem Range, Smokes, Flares and our Quicklight candle range. Prototypes can be viewed at the Spring Fair trade show.

If you haven't already done so we strongly recommend you register on our website [www.trafalgar-grouptrading.com](http://www.trafalgar-grouptrading.com) and once approved you will be able to see live stock and prices and receive new product news as it happens. You can also order online for speedy delivery.

MORE

### NEW DIWALI SELECTION BOX

Diwali is bigger than ever and demand is on the rise. Customers traditionally want a whole heap of smaller fireworks to celebrate The Festival of Light. From a retailers point of view it can be impossible and even dedicated firework stores struggle to match the qty at the desired price point. Trafalgar have solved this by introducing a bespoke Diwali pack containing an assortment of 60 small fireworks plus 25 sparklers thrown in for good measure.

### INDOOR FIREWORKS BUMPER PACK

Indoor Fireworks Selection Packs have been our biggest selling product every single year we have had them in stock, going back to 2009. In fact, in 2009 they were our only product! The past couple of years has been challenging as some of the items were becoming more and more difficult to manufacture. We have spent the best part of these past two years working on new products for the pack and we have come up with some great new innovative items whilst keeping some old favourites and in fact improving on their effects.

EXCITING NEWS

## NEW QUICKLIGHT CANDLE RANGE

We're super excited to bring you these very special candles. Standard, Colour Flame and Happy Birthday candles with a Quicklight strip for you to light all the candles at once! Plus our great new Flower Power lotus candle. Once ignited the flower will open, automatically light the candles on its petals and play the Happy Birthday tune.

Orders are accepted by phone, email or our website

Orders are delivered prompt! Normally 1 – 2 days.

Minimum carriage paid order £150.

£15 charge for deliveries with domestic address

Orders under £150 are accepted but will be subject to a £10 delivery charge.

Channel Islands, Scottish Islands, Northern Ireland, Eire – a carriage surcharge may apply.

Credit account customers are required to settle invoices within 30 days.

We accept the following payment methods: Cheque, BACS, Visa, Maestro, or Master Card.

#### CAT F1 / T1

Category F1 fireworks and T1 pyrotechnics are items which present a very low hazard and negligible noise level and which are intended for use in confined areas, including fireworks which are intended for use inside domestic buildings. Please note, not all products can be used indoors, please read warning labels or contact us.

Our products can be displayed anywhere in the store, are not required to be kept in a protective cabinet or a separate area and can be sold to any person over 16 years of age.

Our products can be sold all year without the need for a firework sales license.

#### NEC

NEC relates to the Net Explosives Content of a firework. Any premises can store up to 5000g of NEC without the need to register for storage with the local authority. If you require to register with your local authority and are unsure of what to do we are happy to help you.

#### HAZARD

The hazards listed refer to the Transport Category for fireworks

1.4 - Substances and article which present no significant hazard.

S - Substance or article so packed or designed that any hazardous effects arising from accidental functioning are confined within the package.
