Welcome to Skinnwille Home

Classic yet personal home decoration – Skinnwille Home brings you timeless, Scandinavian home furnishings in soft, durable materials. Our collection ranges from real sheepskin to faux fur. We offer cushions, blankets, seat covers, rugs and furniture in a variety of colours, shapes and materials. Each piece adds beauty, comfort and stylish hospitality to every home.

We select our suppliers carefully and work only with those that meet our high standards of animal welfare, preparation and quality. This means the products are as natural as they possibly can be. They will continue to please for many, many years.

Our eco-friendly sheepskins are conveniently labelled as follows.

This label tells you that the skin is biodegradable and eco-friendly. All the substances in the tanning process and postprocess treatment meet fundamental EU regulations for environmental protection.

ECO-TAN™

Our suppliers use the eco-friendly ECO-TAN™ dyeing process. It consumes at least 30 percent less water than traditional tanning, all of the tanning agents are recycled, and only chemicals with a minimal environmental impact are used.

Our story begins over a century ago. Geron Wilhelmsson was born on a farm in 1896 and looked to his surroundings for his livelihood. The Falbygden area had more cattle per square meter than anywhere else in Sweden. With the excellent supply of cowhide and wild animal skins, Geron soon realised how he could make a living.

In 1922 Geron opened his first business in Falköping. News of his fine products soon spread throughout the countryside. Business expanded as demand grew. Talented craftsmen were employed in production.

In 1934 Geron expanded the business to include shops in Gothenburg and Nora. Imports and exports also developed. The third generation runs the company today with retailers all over the world. The passion for the material and the craftsmanship is the same now as it was then.
