

Oli Olsen

Inspiring gifts from innovative brands

2023

Oli Olsen

Launched in 2016, with a view to bring our customers the most trend-driven products from around the world. We specialise in unique design-led gifts & homeware and work with some amazing forward-thinking quality brands.

This year we are excited to continue to expand on our selection of keyrings as well as launch 3 brand new mini lights from Dhink.

As well as additions to current ranges, we are delighted to welcome Flow Amsterdam and Sliwils to our family of brands. Flow Amsterdam is a dutch brand that designs products which give young parents the rest and harmony in those early years. The collection exists of functional products, that are stylish and easy to use such as night lights and heartbeat comforters. Sliwils is more than a shoelace. It is a fashion accessory allowing you to adapt to fashion trends and transform your shoes.

We wish all our customers a prosperous 2023 and look forward to continuing to work with you throughout the year.

Lifestyle & Accessories

Our lifestyle and accessory collections make the perfect gifts. From our brand partners Metalmorphose and Stwils, you will find the largest selection of luxury 3D keyings, bag charms and fashion laces - the latest fashion accessory. Don't forget we also have some amazing in-store display options to showcase our collections.

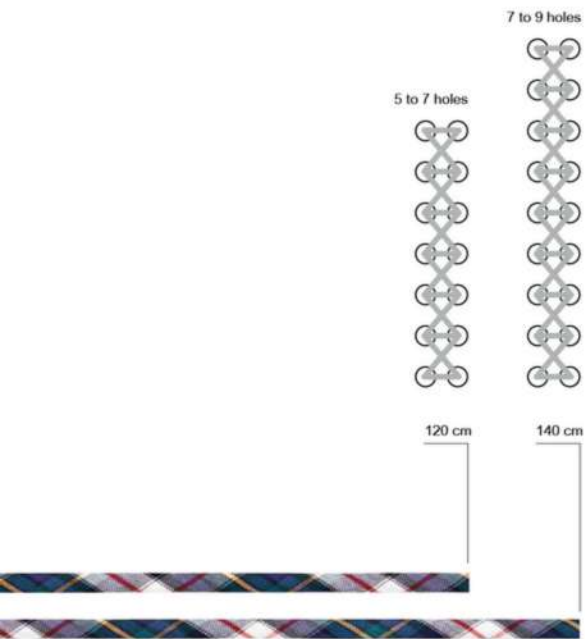

sliwils

The answer is obvious, sliwils was born to fulfil a function that goes beyond tying shoes. The philosophy behind it is to give colour, to personalise, to adapt to fashion trends, to be different, to have fun, to exchange and apply infinite ideas that we may have to be unique.

It is a cord that starts from a manufactured fabric, which means that almost any fabric can become the basis for your Sliwils. This opens a whole world of possibilities to create shoelaces, we can turn a simple shoelace into a whole universe of colour and fashion.

Sliwils are much more than shoelaces and in fact their possible applications go beyond what could be considered their "normal" use. But, apart from its function, sliwils is a technologically revolutionary product. It is a tubular article made of bias woven fabric, a product that the company knows and manufactures to perfection, filled with twisted fibres and finished with a metal terminal to close the ends. The result is an incredibly resistant cord which, thanks to being made mainly from fabric, allows for an incredible range of patterns.

Fabric Shoelaces

These tubular laces are made from biases fabric, filled with twisted fibres and finished with a metallic terminal to close the ends. The outcome is an incredibly strong lace with great resistance and elasticity.

Home & Kids

Our home & kids collections are growing with the introduction of Flow Amsterdam to our family of brands. This year we are delighted to launch new mini lights from Dhink as well as our new remote control car from KIDYWOLF - not to be missed!

Dhink® designs believe that children's (or grown-up kids) imaginations should be translated as vividly as possible. A passion to create products with a mix of functionality, emotion and brain teasing design - growing up is optional!

The product line is created through the inspiration of both "in house" design teams and designers worldwide. This variety of creative thinking results in a collection that spans multiple cultures and stimulates people to be open minded.

Dhink® design brand was established in 2007, brought to life by a creative Belgian design team, with years of experience in smart design & consumer products. DHINK® products not only stir up positive emotions but also put a smile on the face of the daily users.

flow

AMSTERDAM

Flow Amsterdam is a dutch brand that designs products which give young parents the rest and harmony in those early years. As young parents they know that having a baby is the most special experience, but parenthood also has a lot of challenges.

Flow Amsterdam wants to create a more fun and easy life for parents and their children. They dream of bringing harmony, simplicity and happiness in to the lives of young children and their parents by creating meaningful products.

Flow Amsterdam loves creating happy products for kids, making life easier and more fun. Having children is very special and they deserve only the best. With their products they want to give them the safety, love and trust they need to grow up. Their products come from an honest work environment, are sustainable and of high quality, because they want you and the rest of the world to have a lifelong smile on your face.

KIDYWOLF

KIDYWOLF was founded in 2019 by 3 young dads who wished to change the toy industry. They had an aim to encourage children's physical, mental, social and emotional development with their design led, fun toys, gadgets and homeware.

The designers take care to carefully evaluate the needs and desires of your children, to offer a range of harmless but resistant, aesthetic objects. Many important notions are integrated through play when growing up. These core principles are what make Kidywolf so innovative.

Family, sharing, conviviality are important values that we wish to spread within the homes of our KIDYLOVERS because they give meaning to our daily lives. Many important notions are integrated through play during growth. Our goal is not just to occupy and entertain children. KIDYWOLF wishes to encourage their physical, mental, social and emotional development.

KIDY HEADPHONES

The KIDYEARS headset will be an ideal companion for travel, relaxation and all forms of audio learning. Thanks to its wired connectivity, the headset does not broadcast any waves to the children. With their magnetic ears, children will be able to play by customizing their headphones.

SPECIFICATIONS:

Sound Limitation: The KIDYEARS are limited to 85dB to protect little eardrums

Dual Jack Wire: The headset has two 3.5mm jack inputs/outputs so you can share sounds with friends

Customisation: Fun removable magnetic ears to personalise your headphones
