# For the HOME

## – and everyone who lives there

Öjbro Vantfabrik and our designer Åse Öjbro have designed 14 patterns, which were developed for our knitted woolen products such as mittens, socks and hats.

***Here we are launching selected patterns by Åse in our Home Collection.***

**HEM consists of blankets, throws, sitting pads and cushion covers made of 100% organic wool.**

The wool blankets are perfect to wrap around you on a chilly evening. Cozy wool blankets in different sizes that are always at hand to use on the balcony, on the sofa, in the boat or why not take with you as a perfect picnic blanket.

For our wool products, we use a merino wool quality that comes from New Zealand, from a special type of Merino sheep crossed with the Perendale sheep breed.

We then get a Merino wool quality that is more durable, more robust, warmer, but still soft and flexible. Perfect for wool products, which are subject to wear and tear. You get maximum comfort, warmth and durability for our home products such as wool blankets, throws, sitting pads and cushion covers. All are made of 100% wool.

Wool warms when it's cold, and cools when it's hot. Perfect all year round. Natural and animal friendly. Don't be surprised if our wool products in your home, also become your pets' favourites.

This wool does not smell and does not itch. Easy care; Just air it, that's it!

Do you have to do laundry?; Machine wash the wool blanket in lukewarm water. Use your wool washer's program and lay the blanket flat to dry (never tumble dry).

***Feel very welcome HOME to Öjbro Vantfabrik!***

## Design Dalarna

The Dalarna design is inspired by our traditional dalahorse we have in Sweden. An inspiring Sweden symbol patterned and dyed in traditional colours. The Dalarna design is available as towels, blankets, cushion covers and seating pads.

Soon available as baby blanket 65x90 cm.

### Larger and smaller wool blankets in two different colours

### Seating pads in two different colours

### Cushion covers in two different colours

**Towels in two different sizes and two different colours**

## Design Ekshärad

The Ekshärad design is inspired by Värmland smithery and patterned and dyed in traditional colours. The Ekshärad design is available as towels and as wool blankets.

### Large wool blankets in four different colours

### Towels in two different sizes and four different colours

## Design Futhark

Design Futhark is inspired by our cultural heritage, and with the help of the futhark we've created our runic inscription "we honour our cultural heritage" which we then made into a pattern with a classical colour scheme. The futhark design is available as towels, blankets and seating pads.

### Larger and smaller wool blankets

### Seating pad

### Towels in two different sizes

## Design Fästfolk

The Fästfolk design is inspired by all the wonderful lovestruck fiancées we have in Sweden. An inspiring tradition that we have poured into a pattern and dyed in warm colours. The Fästfolk design is available as blankets, seating pads and cushion covers.

### Large wool blankets in five different colours

### Cushion covers in four different colours

**Seating pads in three different colours**

## **We need a kitchen towel every day!**

Cotton has high absorbency and is the best material for drying dishes etc.

We love kitchen towels. The kitchen towel brings color and shape into the heart of the house.

Here you see our GOTS certified towels, perfect for a sustainable and beautiful everyday life. We have 100% cotton in our towels and they are of course woven from organic cotton. Perfect to use year after year. Beautiful towels that are always at hand in the kitchen at home, in the summerhouse, in the camper or on the boat. We usually call our nice towels our mood-enhancing kitchen helpers.

In the past, a kitchen towel was mainly used to dry dishes and cover the rising dough. But today it is also used as a stylish interior detail. A perfect gift to both receive or give.

Discover our large selection of kitchen towels!

You can never have too many kitchen towels. Choose your personal favorites from our different designs.

## Design Lycksele

The Lycksele design is inspired by all the women who have interpreted the "crackle method" (dräll) differently in their weaving, and it is patterned and painted in Västerbotten colours. The Lycksele design is available as blankets and seating pads.

### Larger and smaller wool blankets

### Seating pads

## Design Skaftö

The Skaftö design is inspired by Bohuslän fisherman's sweaters and features a pattern and colour scheme in harmony with snowy nature. The Skaftö design is available as blankets, seating pads and cushion covers.

Soon available as a smaller blanket 90x130 cm and a baby blanket 65x90 cm.

### Large wool blankets in four different colours

### Seating pads in four different colours

**Cushion covers in four different colours**

## Design Skogen

The Skogen design mitten is inspired by the everyman's right, a Swedish symbol here depicted by the king of the forest in dialogue with the raven. Patterns inspired by and colored in nature's own colors. The Skogen design is available as towels, blankets, cushion covers and seating pads.

### Larger and smaller wool blankets

### Cushion covers

### Towels in two different sizes

### Seating pads

## Why do you sleep so well u

When, you have spent a lot of money on buying several weighted blankets, maybe got too warm from the filling, or something else that didn't work, then it's time to start learning from our cultural heritage and take a look at wool throws and blankets in 100% natural wool .

Basically, good sleep is about presence. "It may not take more than two minutes, but the body requires you to be 'present' when it is getting ready for sleep and rest.

In the Nordic countries, we are used to telling bedtime stories. Hearing a bedtime story while lying under a 100% wool blanket can be a perfect way to signal to yourself or the children that it's time to sleep.

## nder a thick wool blanket?

A soothing, beautiful blanket or throw on your duvet as an extra soft hug can indicate to the body that it's time to rest. Aesthetics and function should go hand in hand and it goes without saying that both woollen blankets and throws, which are fundamental to a good night's sleep, should be nice to look at.

We are all different and have different needs, but we all need presence, and if we can create a pleasant feeling before we go to bed, we will take that feeling with us to sleep. Surveys show that a third of all of us have problems sleeping. That's why our folkloric blankets and throws fit into our bedrooms, a way to inspire our imagination in the world of dreams.

A ginger cat is lying on its side on a grey and white patterned wool blanket. The blanket has a fringed edge. The background is dark and out of focus.

We love Wool and we love our pets, we care about sustainability and animal welfare. We never compromise on quality, and from the beginning in 1996, we have been focusing on making our products as natural and environmentally friendly as we possibly can. Our wool comes from New Zealand and in New Zealand the wool has full traceability back to the individual farms where the sheep are raised. These farms do not practice mulesing and they meet strict rules around animal welfare. The wool is gently washed with NPEO free 6 Mole detergents and no bleach is added. This is done so that we all can feel good using a pet friendly blanket from Öjbro Vantfabrik.

We constantly try out new combinations, to make our wool more durability like our mix of Perendale/Merino in our pet friendly Blankets and Throws.

Our New Zealand wool. It is well known that New Zealand belongs to the world's largest wool producing countries. Their climate and landscape

is suitable for sheep farming. The sheep are outside all year round. It makes the wool become thick, clean and really white.

Raising Perendale sheep is easy since they are good-natured, resilient and easily adapt to a number of climates and areas. The Perendale can easily be raised in areas that receive heavy rainfall and this breed is able to acclimate well to cold temperatures. Perendale history explains that the breed was developed in order to fulfill the requirements of country farmers around the world.

Today the Perendale is one of the most common breeds in New Zealand. When the Perendale is crossbred with the Merino they are known to produce exceptional lambs. This is a popular breeding for commercial wool farms who are concerned with producing high quality yarn and animals first and foremost.

When you have our wool blankets at home, they will quickly become favorites with the whole family. And they are guaranteed to be your pets' favorites too.
