# A VERY WARM WELCOME TO DIVINE DISTRIBUTION'S VOLUME 15 BROCHURE

Celebrating 10 years since I purchased and took the helm at Divine Distribution, I often reflect on what continues to keep me so motivated and enthusiastic about the business.

The team I have with me has got to be my biggest motivator. Their equivalent enthusiasm and comparable zeal in bringing to you our beautiful range of products from the small rustic regions of Spain, is most definitely the key to the success and development of our business.

Once again, we have new additions to our most popular Spanish Ceramics, Tunisian Sustainable Olive Wood and Recycled Glass ranges, whilst also introducing beautiful new ranges of home, kitchen and giftware.

All our Ceramic, Recycled Glass and Tunisian Olive Wood ranges continue to be sourced and developed

with our ever loyal family run businesses in the Spanish and Tunisian villages and towns, where generations still continue to live and work to produce these beautiful pieces with a strong sustainability ethos.

Divine Distribution offers exclusive home, garden, kitchen and gifting products for your business and customers.

Wishing you prolonged health and success.

Best wishes

# Burbujas

Burbujas translates to "bubbles" in Spanish. To create this small range of ceramics, air is pushed into the paint before being hand-dipped. Once fired in the kiln, these fantastic designs are created, making each piece individual and unique by design.

Microwave & dishwasher safe.

# Outdoor Living

Our extensive range of outdoor pots are all produced by a small family business in Andalucía. They include a mix of hand-dipped solid colours, and hand-painted vibrant flowers.

Whilst all our pots are frost resistant, due to the UK winter climate we always recommend following the advice of our supplier in storing them indoors during the winter months.
