

Letts
of London®

FULL YEAR COLLECTION 2025

GLOBAL RANGE

Here at Letts of London, we care about the environment and always look for new ways to minimise the impact of our operations, both at our manufacturing facility located in the UK, and within our global supply chain.

The paper we use comes from sustainable, well managed and certified sources. In addition, we are members of the Forest Stewardship Council (FSC) and support their principles. This means that we only work with suppliers complying with the highest environmental standards. We are also ever-mindful of the use of harmful chemicals and dyes.

We are updating our processes, materials and packaging to make our product range more sustainable, and have developed two specifically eco-friendly collections, Conscious and Eco Writers, both crafted with recycled materials.
