Working with only the purest ingredients and inspired by our beautiful surroundings here in Scotland, our goal is to continuously exceed the expectations of our customers around the world by delivering superior quality and exceptional choice.

As the oldest producer of lifestyle candles in the UK, everything we do is underpinned by a long tradition of candle making. Whilst much has changed over the years, Shearer Candles is still recognised for our artisan approach, use of high quality ingredients and our attention to detail.

We hand-pick the finest ingredients that are certified to the highest standard, importing waxes, wicks and fragrance oils from all over the world to create our products right here in our factory in Glasgow.

Each fragrance is selected by our experienced nosing team and sourced from accredited fragrance houses in accordance with CLP regulations.

Our in-house product development and testing team are constantly developing and improving our portfolio of products to suit market trends and to ensure our products perform to the highest standard. We are also continuously making attempts to reduce our carbon footprint and reduce the amount of plastic packaging we put out into the world.
