SKE

CRYSTAL 4 IN 1 2400 POD KIT

The SKE Crystal 4 in 1 is a clever, 2400 puff, high-quality vape kit from SKE that contains up to 4 x flavoured 2ml pods at any one time. It has an internal 950mAh battery, rechargeable via the supplied USB-C cable. Overall it is slightly bulkier than a standard pen-style vape but it is still compact, durable and attractive in design.

The ability to store 4 x 2ml pods within a cylindrical clip that is inserted into the device gives an increased (yet UK-legal) e-liquid capacity of 8ml, which allows for a far longer lifespan, up to 2400 puffs before the e-liquid runs out.

When one pod is empty or if you fancy a flavour change at any time, simply twist to align the arrow with a different inserted pod and inhale to vape. The side of the active pod with the flavour name is clearly displayed in a viewing window.

SKE CRYSTAL

VaporLinQ offers a wide range of flavours from the SKE Crystal Bar range. This product offers an impressive 40+ flavours to choose from and is currently the leading disposable vape product.

The new Crystal Plus Pod Kit is powered by an internal 400mAh rechargeable battery. The simple-to-use replacement pods are available in a glorious selection of mouth-watering flavour options.

NASTY

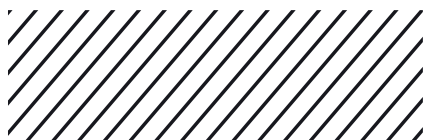

Nasty Liq is a range of revamped nicotine salt e-liquids with increased concentration levels to deliver familiar flavours of disposable vapes. Nasty Liq e-liquids are mixed to a balanced 50/50 PG/VG ratio and come in 10mg and 20mg nicotine strengths.

Nasty Liqs are available in both 10mg and 20mg across 17 flavours.

IVG have created a range of nicotine salt e-liquids to cater to those needing a higher nic hit in their vape. Nicotine salts are more readily absorbed, giving a near-instant hit. The added bonus is, unlike with conventional freebase nicotine, you can have a high level without a harsh throat hit or flavour.

FLAVOUR LIST

IVG 2400

The IVG 2400 disposable showcases a unique revolving pod system housing 4 x 2ml pods that are each prefilled with 20mg of flavoured nicotine salt e-liquid. When you finish a pod, you simply twist the IVG 2400 and load a new one to enjoy uninterrupted vaping pleasure with up to 2400 puffs per device.

VAPORLIQ

LOST MARY

With its instantly recognised, and unique design, the BM600 disposable vape delivers a smooth vaping experience with excellent taste and performance. Available in a range of colours and more than 30 fruit, tobacco or ice flavours, the BM600 is capable of up to 600 puffs for all-day vaping.

The Lost Mary QM600 disposable vapes contain 20mg of nic salts across a wide range of flavours. It is easy to use and conveniently designed with the e-liquid and coil pre-installed.

ELFBAR

VaporLinQ distributes the popular Elf Bar vapes. The demand for this product soared as it became one of the first disposable vapes on the market with a budget price point.

The Elf Bar 600 V2 has an all-new QUAAQ mesh coil technology that utilises a finer mesh and larger heating surface to produce a smoother more consistent vapour.

ABOUT VAPORLINQ

 FULLY UK MANUFACTURED
 SHIP TO ANYWHERE IN UK, IE & EU
 [VAPORLINQ.COM](https://vaporlinq.com)

The VaporLinQ brand was founded in the Netherlands in 2015 and quickly became a market leader. As a part of Superior E-Liquid's strategic approach to breaking into the mainland European market, VaporLinQ was acquired in 2019 and has since gone on to be nationally listed in nine European countries. VaporLinQ is now a part of the Superior E-Liquids and Apache Vape network, which work closely with distribution partners PMS International.

In addition, we have multiple retail partners including Applegreen, Spar, Poundland, EuroGiant, and B&M Bargains. These partnerships enable VaporLinQ to expand our reach internationally, which provides a platform to maintain our exponential growth.
