Our history & future

Growing on strong roots

We trace our heritage back to 1730, in the industrial heartland of Sheffield, and we remain based in Sheffield today. From our earliest days, we produced the world's finest sheep shears as well as knives, axes and other agricultural tools. Demand grew until we exported all over the globe, with annual production of our classic sheep shear design topping 300,000 at its peak in the late 1880s.

As the 19th Century drew to a close, the focus increasingly shifted towards garden tools.

Today we combine our passion for gardening with our experience in tools to create garden tools which are as stylish as they are functional.

Burgon & Ball in the 21st Century

In addition to drawing on our own heritage, our product ranges are strengthened by our strong relationships with famous names, including the Royal Horticultural Society; Sophie Conran of the celebrated British design dynasty; and in recent years the National Trust. These fruitful collaborations have resulted in distinctly different garden tool ranges, catering to all types of horticulture and to every gardener.

Quality

We're passionate about producing premium products, selecting high quality materials for our tools, accessories and gifts. Shoppers can feel secure in buying a product that will last, thanks to our market-leading guarantees of up to lifetime* on our RHS-endorsed stainless ranges.

Environment

Sustainability is also high on our agenda, and we use FSC®-certified wood in our tools, recyclable cardboard packaging, and now recycled plastics in our new RHS-endorsed range of brushes. With a solid heritage behind us, an eye on consumer gardening trends, and quality built into every product, Burgon & Ball is a sound choice for retailers and gardeners alike.

*Qualified at 75 years for legal compliance

Our distinct ranges

Our market-leading range beloved of keen and amateur gardeners alike, this is a comprehensive collection that looks good and always does the job. Endorsed by the world's leading horticultural charity, the minimal returns rate is testament to the quality of the tools.

- Comprehensive and market-leading range
- Endorsed by RHS. The RHS has over 600,000 members and over 30 million visitors to rhs.org.uk each year.

A comprehensive range of design-led tools. These beautiful tools have been created for outstanding practicality and distinctive looks, using advanced manufacturing techniques and optimum materials. Generally lighter and smaller, these tools have been specifically created to offer a tailored solution for gardeners of smaller stature - without sacrificing performance.

- High-tech specification
- Perfect for smaller gardeners

This range brings together the best of traditional materials and manufacturing methods, and harnesses the consumer power of the Trust's 5.4 million members. This appealing, compact range of predominantly high-carbon tools offers a completely different look and feel to all other tools on the market. It was joined in 2021 by a new children's gardening range.

- Traditional quality feel and appeal
- Extensive and loyal customer base

With an emphasis on technical materials and heavy duty performance, this range brings a completely new concept in garden tools from the USA to the UK. While many of the tools have been developed to satisfy the needs of the demanding professional user, the benefits of their innovative features are enjoyed by everyday gardeners too. *See separate catalogue.*

- Professional appeal
- Exceptionally durable garden tools

 National Trust

Made by
Burgon & Ball

An exclusive collaboration between two of the most famous names in gardening.

Utilising traditional manufacturing techniques little seen today, this collection of high-carbon steel tools combines high performance and an aesthetic with a nod to yesteryear.

National Trust

Steeped in horticultural wisdom and experience, the National Trust looks after some of the nation's most iconic gardens.

Children's Tools

Nurturing young people's interest in gardening has been a growing, and children's gardening has gained huge momentum in recent years.

Made to the same exacting standards as our larger stainless steel tools, this collection is perfect for keen younger gardeners. It's also ideal for smaller gardeners, or those who prefer to work with smaller tools.

National Trust Get Me Gardening Children's Range

Features & Benefits

- Aimed at age range 6-10, this collection of children's garden tools and accessories offers a high-quality, long-lasting alternative to 'throwaway' toy tools
- Five year guarantee on all tools
- FSC® hardwood handles and carbon steel
- All products in the range are CE and UKCA approved

SOPHIE CONRAN *For* Burgon & Ball

The only daughter in the well-known Conran British design dynasty, Sophie has been working with Burgon & Ball since 2010, collaborating on products that have won numerous awards and enjoy a near-cult following among keen gardeners.

The range now offers a comprehensive range of garden tools, including large tools and large cutting categories.

The beautiful Sophie Conran for Burgon & Ball range really is serious gardening, made stylish.

Sophie Conran Tools

Features & Benefits

- FSC® ash T-grip handles for comfortable double-handed use
- Stainless steel head and socket to slide easily through soil and resist rust
- Embossed brass plaque

Burton & Ball

kneelo

Since the launch of Kneelo® in 2010, these garden kneelers and knee pads from Burton & Ball have been a consistent top seller.

We believe our Kneelo® range is the most comfortable range of memory foam kneelers and knee pads on the market. Together with improved construction, the range also has an eye-catching new look, including fresh colours in an embossed pattern. New, stronger branding reassures shoppers that they are getting Burton & Ball quality.

30% more cushioning*

*compared to our original design

Indoor Gardening

Still a hot trend in interiors, houseplants have universal appeal. They're loved by gardeners and non-gardeners alike, they find a place in every home.

The demand for indoor greenery shows no signs of slowing – and every plant needs a beautiful pot to show it off to perfection.

The stunning Flora and Fauna design takes historical inspiration to create an up-to-the-minute pattern for gardeners' gifts.

The combination of illustrations includes elegant Chinese watercolours and hand-coloured engravings from the RHS Lindley Collections dating from 1819-1912. With beautiful songbirds and a chinoiserie feel, Flora and Fauna is setting sales records.

Display Solutions

Designed to showcase our high quality and stylish brand values, our award-winning display solutions will help you maximise your sales of Burgon & Ball products.

We put great care into creating display solutions that are exciting and versatile, with premium POS to catch shoppers' attention. From the striking RHS endorsed back wall tools stands, to multi-functional small-footprint stands on castors for easy re-positioning, these displays aim to increase your return on floorspace.

Back Wall Solutions

- RHS endorsement and lifetime guarantee clearly highlighted throughout stand.
- Informative banners, back wall POS and packaging communicate product benefits.
- Premium display with hand-sawn timber base reflects the quality of the brand.
- Photographic hook end tags on stainless hand tools help with product identification.

Product Guarantee

At Burgon & Ball we stand by the quality of our tools. All our products are covered by at least a one-year guarantee, but look out for the below logos on the product packaging and throughout this catalogue for items that carry a longer guarantee.

Very occasionally, there may be structural failings caused by errors in manufacturing or defects in materials that can cause a product to fail. If any fault occurs within the period of guarantee we will offer trade customers a credit for any item returned to them by their customer.

We may very occasionally ask for the item to be returned to us for quality control purposes, but usually all we require is an image of the item clearly showing the fault, and the customer's proof of purchase (with the exception of tools covered by the lifetime* guarantee, where no proof of purchase is required).

Under this guarantee we cannot cover normal wear, lost or stripped parts, or any product which has been modified. We also cannot cover product damage due to misuse. i.e. using a tool in a manner for which it was not designed, or where the tool has not been adequately cared for e.g. Keeping a tool outside rather than in a dry environment. This guarantee also excludes cosmetic changes in appearance due to wear and tear.

*Qualified as 75 years for legal compliance

Press Coverage

We have our own in-house PR team, working with consumer press in print and online throughout the year.

We supply samples for review, plenty of product information, and beautiful photography to keep our products in the spotlight – and to help create awareness among your customers. **Here is a small snapshot of our press coverage in 2022**

RHS-endorsed Half Moon Lawn Edger

Evening Standard (ES Best 'Top Pick')

"A lawn edger that's endorsed by the Royal Horticultural Society gives the kind of peace of mind of knowing you're getting a top-notch tool. The T-bar handle means you can really put your weight into it when you're pushing down, the serrated stainless-steel blade makes slicing through ground as easy as cutting a piece of cake and there are even little foot treads on the top of the blade to provide a safe place for feet to go."

RHS-endorsed Ergo Deadheader

Gardens Illustrated

"These neat, compact clippers should save you a lot of hassle when it comes to pruning and deadheading. They're designed to fit perfectly in the palm of the hand as you pull together the two arms. There's also a well-placed loop just below the blades to keep your finger stable."

A high-quality gardening tool, these clippers are endorsed by the RHS, so you can be sure they'll perform well for years to come. Just remember to clean and dry the blades to keep them sharp."

Love The Glove - Red Tweed

Gardeners' World

"Made from artificial suede and tweed with a leather trim, the Burgon and Ball Love the Gloves were some of the best ladies' gardening gloves on test and were awarded a BBC Gardeners' World Magazine Best Buy for year-round use. The materials are high quality and the gloves are breathable, tough and provide protection all year round. The wrist strap is adjustable for a snug fit."

Kneelo® Kneeler

Gardeners' World

"Awarded a BBC Gardeners' World Magazine Best Buy for size, it's extremely comfortable to use and it also features a shock-absorbing foam centre that provides the necessary rigidity to support your knees, which is helpful if you suffer with stiff joints. At a generous 52cm in length, this is the longest kneeler on test, offering plenty of room to kneel comfortably while you work. The integrated handle is nice to hold when you're moving about the garden, and also means you can hang it up for storage"

Burgon & Ball
AND
VENANPRI group

GROWING ON STRONG ROOTS

At the start of 2018 we joined the Venanpri global group of some of the finest heritage tool brands. Since then, we have enjoyed the support of a multinational organisation with truly global reach, drawing on the expertise of a family of well-established, high quality brands, well-known across Europe and North America.

The Burgon & Ball facilities in Sheffield have seen significant investment under Venanpri, and our commitment to the manufacture of tools in the renowned steelmaking city remains as strong as ever.

Together Burgon & Ball, Corona® and Bellota represent nearly 500 years of advancement in developing superior tools; tools which have been the leading choice for generations of horticulturalists. We are now bringing the outstanding tools manufactured by our fellow Venanpri brands to the UK, extending choices for British garden retailers, and for their customers.

CORONA®

SEASON AFTER SEASON

CORONA® TOOLS

Corona® is America's leading tool innovator, offering tools with outstanding strength and lasting durability, based on a need for reliability.

The story started in 1928 with the invention of the first Corona® tool, the orange clippers that forever changed the citrus industry.

Ninety years later, Corona® still produces this shear and continues to excel at combining the best of American engineering with an innovative approach. Corona® tools are ideal for the UK market, providing robust and durable garden tools to fill a notable gap in the UK offering, and solving real problems for professionals and keen gardeners alike.
