# ABOUT US

## Origin of the brand

The idea for Nusuk was sparked during the brothers' extensive travels around the world, inspired by the diverse scents they encountered on their journeys. From the aromatic spices of Morocco's bustling souks to the fragrant blossoms of Japan's cherry trees, their experiences were a tapestry of global influences. These encounters led them to establish Nusuk, a brand that would encapsulate the essence of their global adventures, infusing a touch of Arabian mystique into each fragrance, and bringing the beauty of these scents to the world in a unique collection of perfumes.
