WHERE IT ALL BEGAN!

In 2022 Club Green celebrated its 40th anniversary. We started off as a small family run business and quickly established ourselves as market leaders in wedding favors and craft supplies after being the very first company to introduce the popular Italian trend, wedding favors to the UK Market.

Initially, our business supplied to a large number of wedding and cake craft shops across the country. Following customer feedback and requests for a more on-trend party solution, in 2018 we launched our new party brand, Hootyballoo, which now supplies to a growing number of party retailers across the world with balloons, tableware and a variety of seasonal decorations for all occasions. We now have brand ambassadors/partners across the world distributing the Hootyballoo party brand!

WHY CHOOSE HOOTYBALLOO?

We have spent a lot of time curating fabulous ranges of products for all occasions. For retail customers, our products are offered in eye-catching class-leading packaging (ensuring they really stand out when merchandised) and all our ranges are designed by our in-house team of passionate designers, who work hard to create unique & fun products that will get everyone in the party mood.

WHAT MAKES US DIFFERENT?

We've always run an honest business and the focus has been to offer quality products at affordable prices, backed by the very best customer service. We have grown the business organically, which has given us longevity and stability. We control our own logistics from our warehouse/offices, meaning we don't have to rely on third parties to distribute to our customers. This gives us and our customers huge flexibility. We also pride ourselves on having a great team. Our staff turnover rate is incredibly low; many team members have been with us for 10 or more years. Our team is hardworking, loyal, and incredibly keen to offer great services to our clients. Additionally, our design team is consistently creating new ranges to keep up with evolving trends, ensuring we remain relevant by producing exciting new ideas and products regularly.
