Our Story

Heart & Soul Studio create a series of fun and engaging, yet affordable paper made products. With over 40 years of industry experience, we began our journey by becoming leaders in quality handmade Christmas crackers. Our business has expanded and grown. We proudly hold onto our legacy, bringing with us a wealth of experience and knowledge.

As experts in paper made products, we have a diverse offering, and in 2025 are introducing beautifully designed products beyond crackers. These items are eco-conscious celebration accessories specifically for the catering and hospitality sectors. We also offer a range of handrolled Christmas crackers using opulent papers and bows, lovingly made here in Poole, UK.

A system that works

From careful design – right through to our manufacturing process – we strive to create beautiful products that are kind to both the planet, and the people with whom we work. Wherever we can, we choose sustainable materials that can be reused, recycled, composted, or biodegraded.

Please see our eco icons throughout this brochure which will help you to identify the recyclability and reusability of our products.

The recyclable product icon indicates that the product itself is recyclable, this includes products with limited hot foil stamping.

The reusable contents icon indicates that the contents within your product can be used and enjoyed again and again.

The recyclable packaging icon indicates that the packaging of the product can be fully recycled, even the PET window too, if applicable.

The non plastic contents icon indicates that the contents within your product are free from plastic and eco friendly.

Our sustainable approach

Being environmentally conscious and sustainable in our approach is very close to our hearts and embraced through our design, material sourcing and manufacturing process.

Guiding our clients through each product development, we encourage and advise the most sustainable choices along the way. We know we aren't alone with our passion for sustainability.

- Significantly reduced plastic use
- Using recyclable materials and re-usable items
- Using recycled or responsibly sourced paper

...are just some of the ways we are doing our bit to make a difference.
