## Chester Series

The Chester Frame Series offers a classic, minimalist design available in black and natural finishes in a variety of popular sizes. This stylish, modern frame is made from strong MDF that remains sturdy and will not bow or distort.

Table display frames in this series are supplied with removable white picture mats. The poster frames are lightweight due to their shatter-proof acrylic fronts, making them easy to hang on the wall in either portrait or landscape orientation using the built-in metal brackets. Frames sized A2 and larger include two small 90-degree metal brackets to keep the back-board attached with extra security and ensure the outer frame does not bend. A small screwdriver is included with these frames to unscrew these brackets. Each frame has a removable clear film covering the outside of the acrylic to protect it from scratches.
