

PRODUCT DECK

We, at **CwaZyLeigh CteaTions** produce unique and relatable stories for our audience, centring around larger- than-life characters and their adventures, exploring their worlds and personalities; looking for opportunities to partner with retailers/distributors and introduce our creations to a wide audience of curious children and adults.

**Open for collaborations and partnerships.*

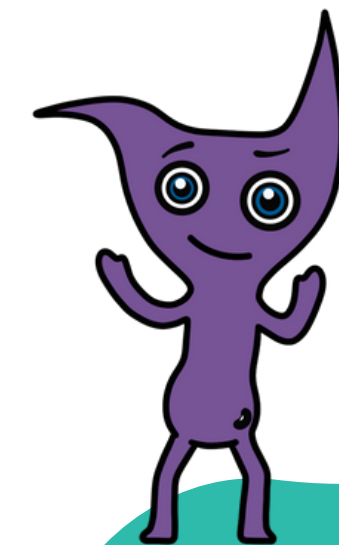

Follow the adventures of Sir Laurence Huffington and his friends on exciting adventures as they explore the world, make new friends, and teach readers how to care for pets and wild animals alike. Four of these characters are inspired by real-life pets, while the rest come from the wild and there's even a one-of-a-kind, totally unique creature you won't find anywhere else!

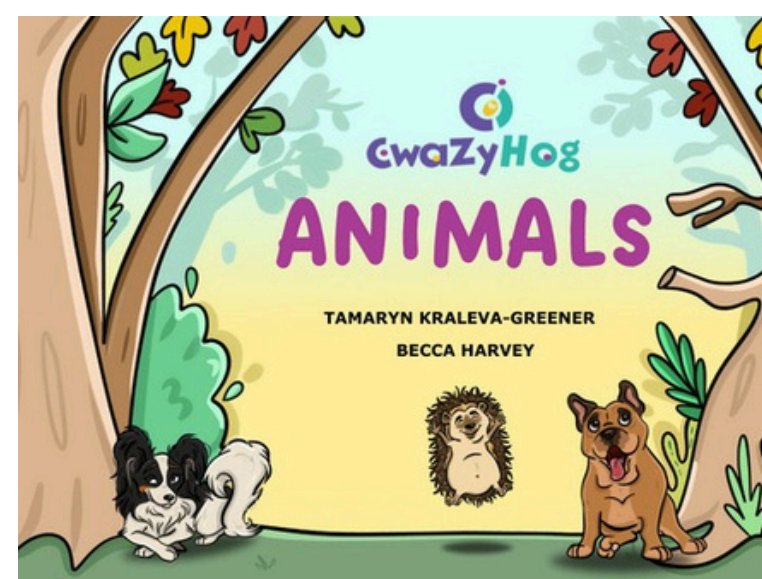

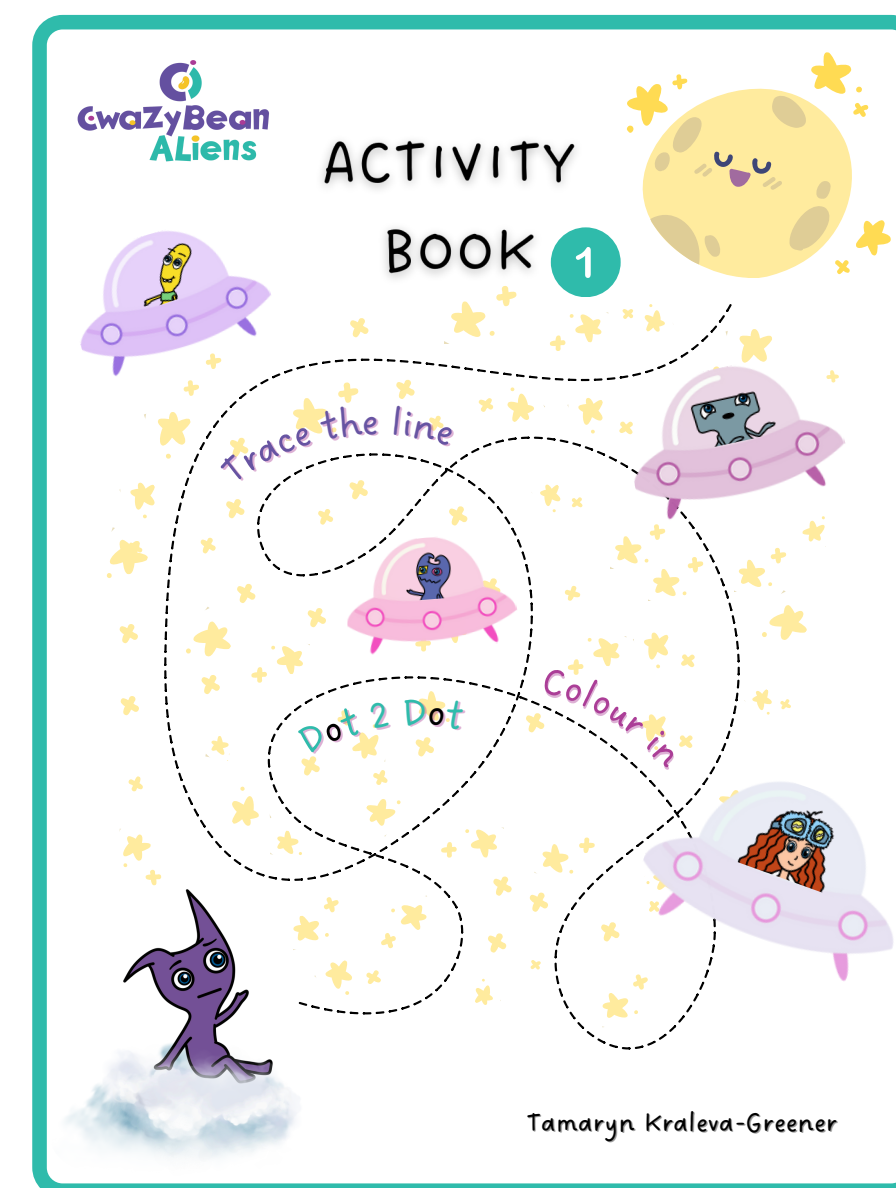

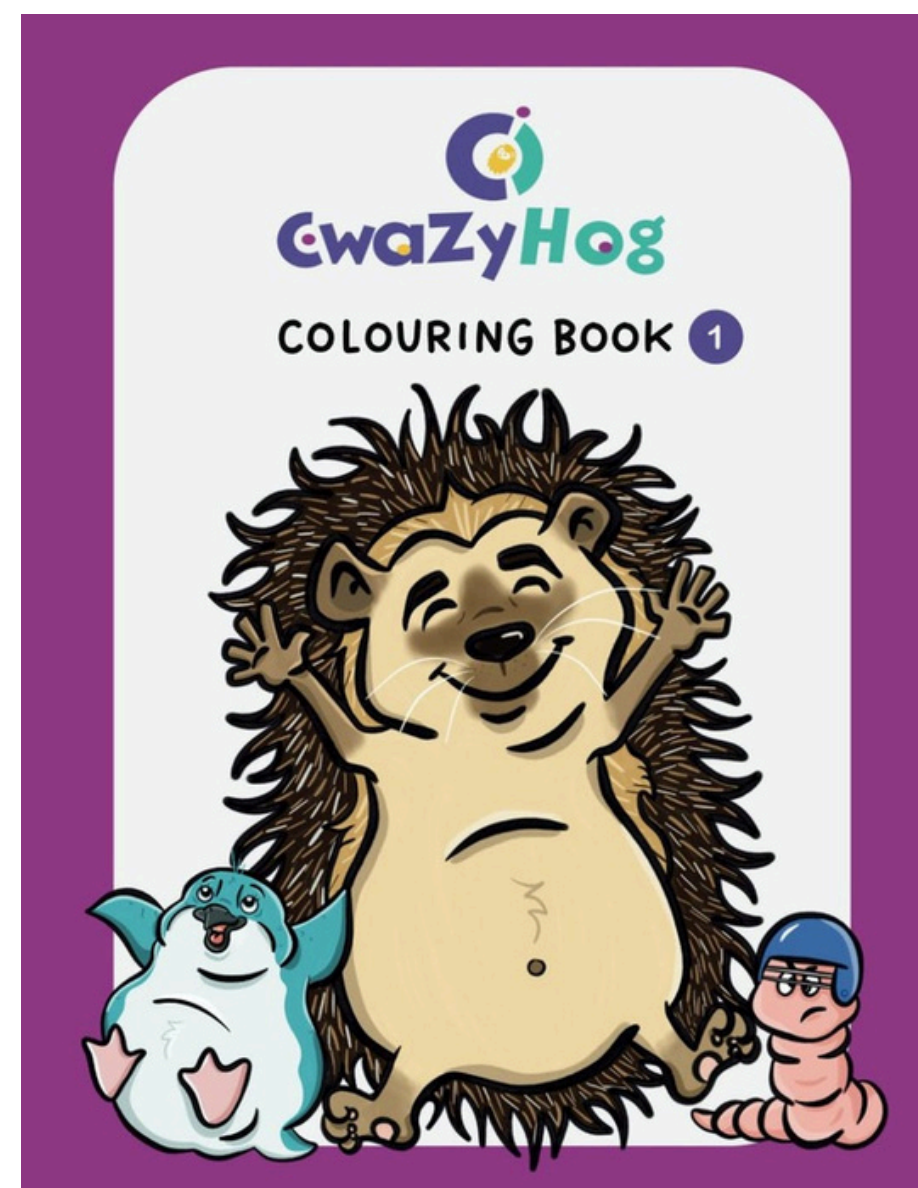

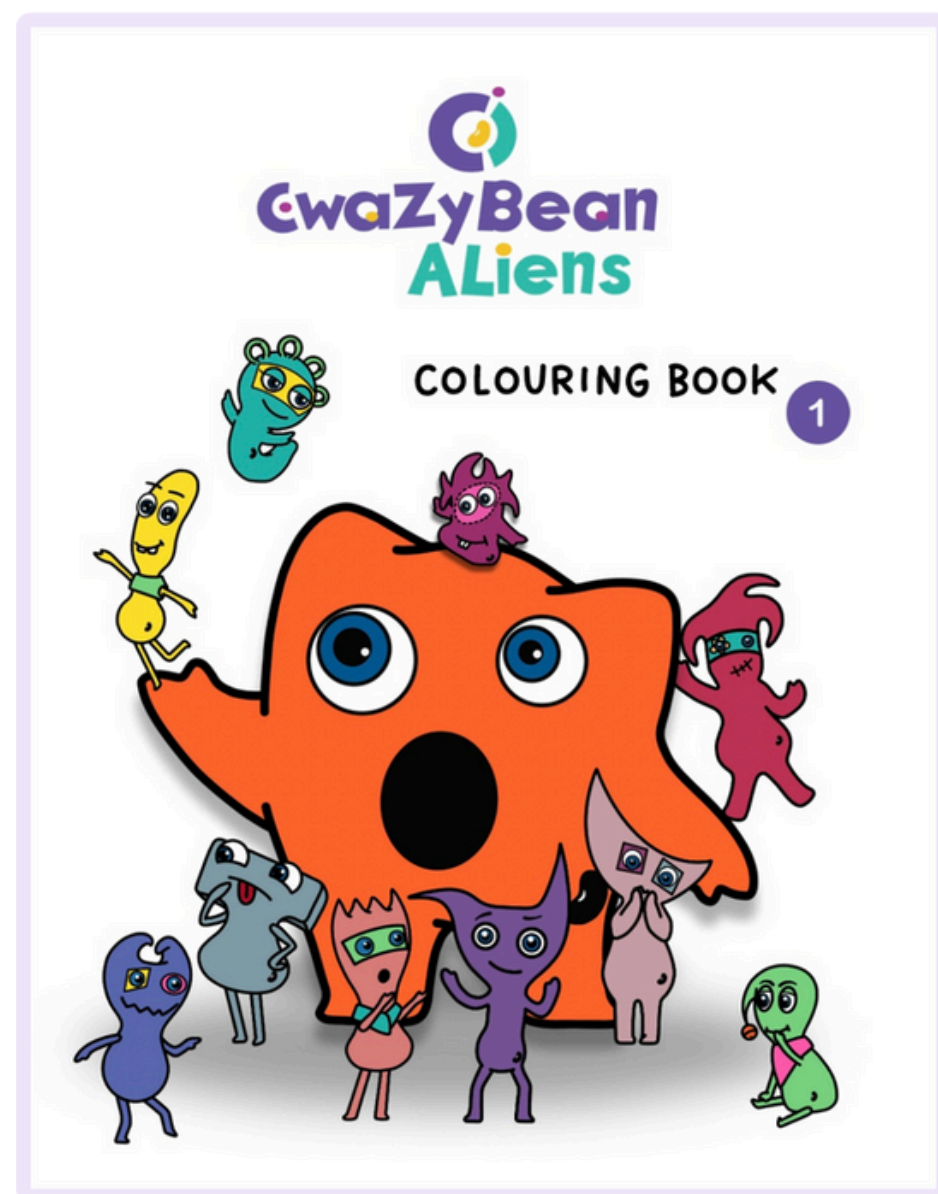

CwaZyLeigh CreaTions currently has two in-house projects, with nine more in development, waiting to come to life through collaborations with freelance illustrators. We believe in the power of storytelling to inspire, educate, and connect people. Our mission is to create imaginative and memorable content that fosters togetherness and inclusion, embracing all ages, genders, races, and abilities.

The story follows eleven quirky alien species who come to Earth after their galaxy is destroyed. As they settle into their new surroundings, they embark on a journey to discover what it truly means to be human, learning about nature, animals, and different cultures along the way. These CwaZy aliens find their forever home among humans, in heartwarming storytelling that celebrates friendship, unity, and authenticity.
