Tiffany Style Table Lamps

Our Tiffany style range of lamps are based on the original designs. Many made popular by the designer Louis Comfort Tiffany during the early part of the 20th Century.

Our shades are made from Favrile (meaning handcrafted) stained or iridescent glass.

Each shade is handmade and may contain as many as two or three hundred individually cut pieces of glass which are then assembled like a jigsaw and soldered together.

All our bases are bronze finished cast metal to emulate the originals.

UNDERSTANDING LED

Kindly be aware that your choice of LED bulbs will determine the exact colour of the stained glass once lit.

Here are some examples of the variations in brightness you might observe with:
