Task Lighting

Task Lighting generally includes at least one adjustable hinge and a directional head, allowing you to position the light source exactly where you need it. Our collection offers floor, table, wall lamps, and pendants to match your preferred style.

So find a perfect table or floor lamp for your favourite reading corner or utility style pendants over your kitchen work surface or dining table in this section. Task lighting can be classic or contemporary, but generally has an industrial feel to it and uses core materials such as metal and glass in a variety of finishes, creating ambience, and with boundless style.

Contemporary Lighting

Our extensive range of Contemporary Lighting Suites offer minimalistic designs featuring an array of beautiful finishes to suit any interior, adding an element of sophistication and luxury to a space. Mainly suites of table and floor lamps, with some ranges including wall lights and statement pendants; the ethos behind this section is clean lines and core materials such as metal glass and acrylic.

Our LED range, where the bulbs are inherent within the lamps or pendants themselves, use 3000 - 3200K light warmth, meaning they will offer a gentle, warm glow rather than a cold blue light, the optimum light colour for ambient living spaces.

JENNY WORRALL DESIGNS ENGLAND

Following on, but yet part of the Glass Lighting Range is our exclusive Jenny Worrall brand collection. Epitomising nature, animals, in fact all manner of fauna and flora, this collection is actually made using premium glass and not ceramic as some may perceive.

The labour intensive process, having hand selected the weighty glass piece, is completed by placing the required decals, many designs hand painted at origin, inside the glass. Thereafter follows a lengthy process of layering up the desired paint finish which includes metallic paint accents to complete the simply stunning lamp bases.

These lamps truly are the cosseted antiques of the future.

Natural Forms

Extracting the great quality materials nature provides us with, we have curated an array of lighting, handcrafted by artisans using natural produce; jute, rattan, water hyacinth and seagrass. The flexibility these materials afford means striking forms can be used for table lamps, pendants, floor lamps shades and many more.

Not only environmentally friendly due to the fast growing nature of these material. All of which are eco-friendly due to their speedy natural regrowth. Opting for driftwood or marble furthermore completes this range and would complement a Scandi or Coastal inspired room.

Shades & Accessories

As one of the leading shade suppliers in the UK, our vast shade range offers a solution for every base in a multitude of fabric and colour finishes.

All of our shades come with a detachable reducer to suit either E27 or B22 bulbs. Please note, all shade dimensions are in centimetres.

Most of our plain cylinder shades are reversible meaning that they can be used as a lamp shade or as a pendant using one of our suspension kits.

You can find the recommended shade size on each lamp base that requires a shade on our website or check the brochure as to what size shade we have put on our Base Only Lamps for a visible guide.
