Classic Edition
craftyourown.co.uk

Hello

Welcome to our award-winning Craft Your Own kits. We are delighted you are considering our hand-crafted kits which are made just outside Cambridge. All our kits are designed, developed and packed by ourselves with real enthusiasm and care for the quality of our product.

We are a small team here at Swash and have a passion for developing different alcohol-themed craft kits. We try to make them interesting and engaging to use without being too taxing. We work hard to make sure the quality of the ingredients are top notch so as to guarantee a great result. All our Craft Your Own kits are checked and tested regularly to ensure they really taste great. Someone has to do it!

Over the last nine years we have had thousands of happy customers. We believe we are still the best as we do not skimp on our customer care nor yet the quality of our botanicals. After all, a cake is only as good as its ingredients. So, it is no coincidence that we have been highly commended two years running by the Gift Of The Year Awards.

Thank you

Lynda and Nigel

GIFT OF THE YEAR

310mm high x 99mm diameter

Weight: 844 grams

Packed in cases of six

LOVINGLY HANDMADE
Calypso Blend
PERFECTLY BLENDABLE

The original and arguably the best

We were the first to offer this style of craft kit and now have five products in our broader range of spirit based Classic Edition kits presented in tubes.

The Artisan | The Highlander | The Hedgerow | The Florian | The Calypso

Each one of our Classic Editions are hand packed and presented in beautifully illustrated packaging which befits the quality of the product.

These products are offered exclusively to wholesale customers for retail sales. They combine features of our bestselling online products but in stylish illustrated packaging to ensure they stand out when merchandised. Over the years these tubes have proved extremely popular and our commitment then, as it is now, is not to compete with you online with this exclusive Classic Edition range.

Our products and the environment

Across this range we have worked hard to ensure we do the minimum damage to the environment. We source all of our components including packaging from UK based companies. All of our literature is printed on FSC approved material using water based inks. We are also pleased to say there is no single-use plastic in our kits and we even use compostable bags and glassine envelopes. This is why we were recently voted the 'Most Environmental Kit on the Market' by BBC Good Food Magazine.

Ordering your kits

The tubes are packed in cases of six with free delivery for all orders over £300. The minimum order is one case and we are happy to mix and match within a case of tubes.

As the kits contain no alcohol there is no need for a licence to retail this product.

Proudly handmade in the UK by Craft Your Own
