STARLORE ARCANA

Constellations for Tarot, Astrology, and Cartomancy

Nitasia Roland, Foreword by Sasha Ravitch, original illustrations by John Lenthall

The stars and constellations have long been regarded as gods, sacred ancestors, and powerful entities. This beautiful fifty-six-card deck is comprised of playing cards that have been revived and remastered from original illustrations by John Lenthall, published in 1717. The focus of the Starlore Arcana is the mythology and folklore of sixty-three constellations, including the zodiac.

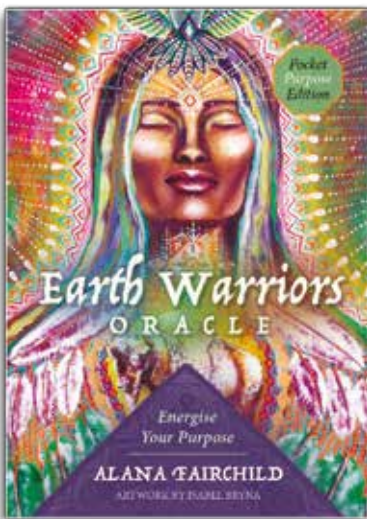

Although many of the constellations have their genesis in lore and myth stretching as far back as Egyptian, Babylonian, and Phoenician origins, most of the interpretations in the companion book derive from Greek myth. By including associations with the minor arcana, the author invites a playful exploration between the tarot, the fixed stars, the zodiac, and playing card cartomancy. The deck has been crafted to align with the fifty-six cards of the tarot minor arcana, with interpretations that follow the tradition of the Rider-Waite-Smith system of symbolism and archetypes.

A stand-alone deck accessible to beginners, the Starlore Arcana features:

Location of the constellation, The myth and lore associated with the constellation, Cartomancy interpretation and Tarot (minor) interpretations

For her interdisciplinary masters degree, she studied English, poetry, printmaking, photography, and design. The Avian Oracle takes you on a journey into the cultural history associated with birds as well as their function in religious practices, magic, and ritual. Forty-five birds serve as guides to help interpret and personalize the messages they bring and aid you in discovering how to work with their energy for spells, dream work, and ritual, as well as spiritual and personal growth. Great or small, every bird has its own particular wisdom and magic that can enrich your life.

The book provides background material for understanding the long, historical association humans have had with birds. Regarded as messengers of gods and goddesses, birds were believed to provide information about everyday matters through the ancient art of ornithomancy and many forms of divination. For everyone from Greek and Roman army generals and rulers to ordinary fishermen, birds served as guides that could help in many aspects of life. For the Druids, the Anglo-Saxons, Germanic tribes of Northern Europe, medieval Christian theologians, and Jewish mystics, birds were an integral part of beliefs and practices. Working with The Avian Oracle aids in uniting the personal with the mystical and magical, the mundane with the sacred.

About the Author

Sandra Kynes has lived in New York City, Europe, England, and now mid-coast Maine, where she lives with her family and cats in a mid-19th century farmhouse surrounded by meadows and woods. She loves connecting to nature through gardening, hiking, bird watching, and kayaking. Visit her website at kynes.net.

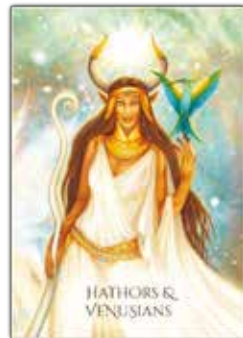

Award-winning photographer and practicing witch Gianna Rini (she/they) is thrilled to be bringing her designs to print with The Avian Oracle. As an avid reader and researcher, Gianna's goal is to bring alive the essence of a book through art as well as text. When not at work, she is often known to be hiding under a pile of blankets, sitting in the dark corners of a candlelit room, or surrounded by foliage.

THE OFRENDA ORACLE

Celebrating the Day of the Dead

Nancy Hendrickson & Carrie Paris, Artwork by Angelica Castro, Foreword by Laura Davila

OCTOBER 2024

9781578638499 | 135 x 185 | £23.00

Weiser Books | 136pp

60 cards & 136pp guidebook

Ofrenda is Spanish for “offering.” These are the items placed on a home altar during the annual (traditionally Mexican) Dia de los Muertos celebration. An ofrenda, which may be quite large and elaborate, is usually created by the family members of a person who has died, and it is intended to welcome the deceased to the altar setting. The initial inspiration for this deck came from San Diego’s close association with Mexico and the yearly celebration of the Dead that runs October through the first days of November. From those vivid images and joyful celebrations came the idea for this kit of colourful cards.

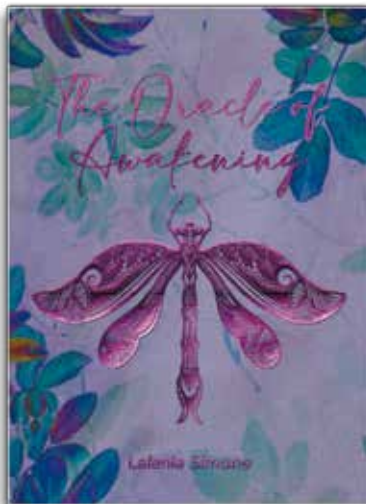

The Ofrenda Oracle includes a sixty-card deck, designed to be read as an oracle. Included is a 136-page guidebook. Cards 1–36 mirror those found in a Lenormand deck, and can be used separate from the remainder of the deck. The additional cards beyond 1–36 depict the vibrant symbolism seen during the Day of the Dead celebration. The Ofrenda Oracle uses its illustrations, colours, and stories to create a sacred space that is perfect for this reunion, preserving traditional elements of the religious and cultural syncretism that is lived and breathed in Mexico.

The Oracle of Awakening is infused with high-frequency energy and intention to help trigger a remembrance of your expanded self and your infinite potential. Each card is a portal, layered with vibrant colours, textures, people, animals, symbols, and keywords, and the guidebook is filled with inspiration for working with the energy of each card. ARCHETYPAL ASTROLOGY ORACLE

A 55-Card Deck and Guidebook

Jonathan Waller

In Archetypal Astrology one works solely with the planetary bodies of our solar system and their geometric relationships, which are known as "aspects." This system offers a rich method for discovering your personal emotional, psychological, and spiritual make-up and how to best develop your path through life.

Pairing evocative cosmic art with in-depth interpretations, this oracle presents a hands-on way to intuitively learn and work with Archetypal Astrology, inviting you to deepen your relationship to self and cosmos, increase awareness and self-development, and proactively work through challenges. The 55 full-colour cards feature every planetary archetype—the Sun, Moon, and planets individually—as well as each possible combination of two celestial bodies. The guidebook draws together insights from Jungian and contemporary psychology, research into psychedelic therapy and the work of Stanislav Grof, as well as many ancient mythological, mystical, and religious traditions to offer an introduction to Archetypal Astrology, followed by in-depth interpretations for each of the 10 planetary bodies and the gifts and challenges of each pair.

The card interpretations within the guidebook include helpful keywords for each planet or pairing and explore how this particular cosmic body or aspect can positively or negatively affect your life, how to integrate their lessons, and how to navigate their transits. The guidebook looks at different ways to work with the deck: as a divination oracle, as a part of a daily spiritual practice, as an aid with dream work, or by creating a tableau of your Archetypal Astrology birth chart for deeper insight. The book also includes reflective exercises grounded in the insights of the mystical traditions and depth psychology.

Jonathan Waller is a respected archetypal astrologer, life coach, visual artist, essayist, and poet. He is the student and colleague of author and renowned astrologer Renn Butler and co-host of Awakenings-The Archetypal Astrology Podcast. Jonathan lives in southwest England

Taking inspiration from the immortal style of the Italian Renaissance, Severino Baraldi gives birth to the whimsical and unique Royal Animals Tarot. This artistic deck, although reminiscent of the Visconti-Sforza tradition, includes fully illustrated Minor Arcana to add visual substance to the readings. The beast-headed nobility depicted in the cards gives an alternative twist to a timeless piece of Tarot iconography, offering an original reading solution that allows the querent to alternate between classic and traditional references to more unusual and unique elements. As the last and final work of the great Severino Baraldi, this Tarot deck stands as a testament to his incredible talent and personality.

According to the tales of Japanese folklore, spirit-like entities called yōkai inhabit the world. They live beneath the canopy of the forests, below the surface of the seas, or in the most secluded corners of our homes. They can be humanlike, beasts, or even objects; they can be mischievous or peaceful and protective. Each of these unique creatures has a great story to tell, a cautionary tale that conveys precious insights and values—much like Tarot's traditional archetypes. The Yōkai Tarot sets you off on an adventure across the Japanese archipelago to meet these fascinating creatures: each Arcanum is an encounter with a yōkai that will help you along the path with its cunning and its millenary wisdom.

THE STAINED GLASS TAROT

An Illuminated Journey through the Cards

James Edward

Inspired by the intricate symbolism and colours of the stained glass windows of cathedrals and other sacred places, this tarot set features detailed original images on every card as well as an in-depth guidebook.

Created as a traditional 78-card tarot, this deck draws the reader into a meditative state as they contemplate the cards one by one or in a spread, glean insights from the mystical symbolism of the tarot archetypes and the stunning stained-glass-inspired artwork of the cards. The accompanying guidebook provides thorough meanings for each card of both Major and Minor Arcana, for their upright and reversed appearances, as well as exploring each card's esoteric symbolism. For the 22 Major Arcana cards, the author also explains how each card fits into the progressive soul's journey from The Fool to The World.

Owing to their importance in his own spiritual journey with the tarot, for the Minor Arcana the author provides detailed write-ups about each card, rather than simply providing keywords as many other tarot guides do. Addressing the most common concerns one might have when divining with the tarot, he describes a number of ways to interpret each card when it appears and how to decide which interpretation to favour over another based on the situation. He also includes instructions on how to use the cards, explains a variety of card spreads, and offers a glimpse into tarot history and its connections to astrology, numerology, alchemy, the Western esoteric tradition, and the teachings of Carl Jung.

This illuminating tarot set provides not only a highly detailed manual for using the cards but also mesmerizing images that draw the eye as well as calm and focus the mind for an authentic divinatory experience.

About the Author

James Edward has been active in witchcraft and the occult for more than 20 years. A scientist by training, he is an animist as well as a Spiritual Ecologist

TAROT DE MARSEILLE AA16

Paris Ca. 1890

Giordano Berti

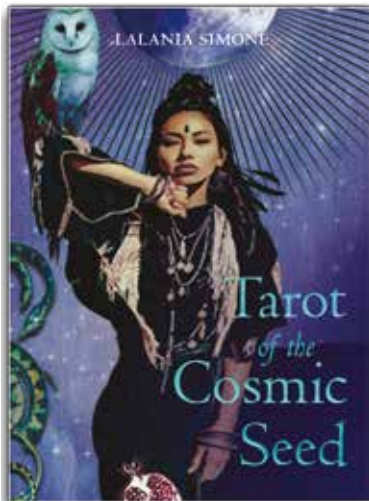

This unique piece belongs to the tradition of Tarot de Besançon—from the name of the French town where these kinds of cards were originally printed. Produced by Baptiste-Paul Grimaud between 1891 and 1899, this deck curiously substitutes the Arcana of the High Priestess and the Hierophant with the figures of Juno and Jupiter. Being part of the long-lasting—and still wildly popular—French tradition, this deck represents an important branch of the Marseille genealogical tree.

As any other product of the Anima Antiqua line, this too is available in a limited edition of 3,999 copies.

About the Author

Giordano Berti – One of the leading experts on esoteric symbolism and Tarot, Giordano Berti has published numerous studies which have been translated into multiple languages. He has designed 15 Tarot and 10 Oracle decks, and he has rediscovered and published numerous ancient Tarot. He currently writes articles on various esoteric topics for Italian and foreign magazines. He teaches courses in Evolutionary Tarot and Magic Symbolism.

TAROT OF THE COSMIC SEED

Lalania Simone

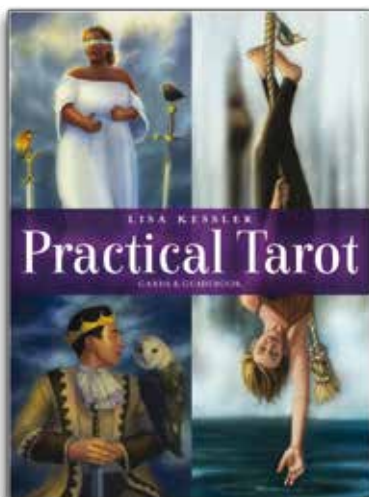

NOVEMBER 2024

9781578638611 | 84 x 135 | £23.00
Weiser Books | 80pp
79 cards & 80pp guidebook

The Tarot of the Cosmic Seed is a luxe deck, full of uniquely portrayed imagery and symbolism with a diverse array of people and cultures. The saturated colors and layers of texture make each card its own experience. Created with digital art and collage, this deck uses the Rider-Waite-Smith tradition as a foundation—with a twist. There is a twenty-third card added to the Major Arcana—The Cosmic Seed. In an effort to decolonize the tarot, remove outdated ideas of hierarchy, and shift ingrained gender norms, Lalania has renamed all of the royalty cards, including the Hierophant, Emperor, Empress, and the court cards. The court cards in the Minor Arcana are often hard to interpret, and renaming them expands their interpretation into more of an energy signature rather than just personality types: Messenger (for Page), Action (for Knight), Nurturer (for Queen), and Mastery (for King).

About the Author

Lalania Simone is a mystic, multifaceted artist, and mother devoted to a path of liberation and awakening. She understands the power of frequency and is dedicated to raising the vibration of the planet. She holds certifications in reiki and yoga and is a meditation teacher. Lalania is the creatrix of Tarot of the Cosmic Seed, The Oracle of Awakening, and the upcoming Wise Earth Medicine Tarot. She also creates sacred crystal talismans to amplify particular energies. Lalania is one of the co-owners of Alchemy Ritual Goods—a metaphysical store in Denver that includes an Ancestral Medicine Clinic, a sliding-scale clinic offering multiple modalities dedicated to healing and spiritual liberation.
