OUR COLLECTION

The Museum Leather Company offers a wide range of truly derived leather products from small leather goods to trinket boxes, all at attractive prices.

We have launched our own themed ranges of products. Each small range uses motifs taken from original pieces of the period from collections around the world.

Our collection covers **Ancient Egypt**, **Ancient Greece**, **Celtic lands**, the **Renaissance**, including two sets based on the ever popular Fleur de Lys motif, with both **Art Nouveau** and **Art Deco** also represented and finally the well-known British designer **William Morris**, whose decorative motifs are so very saleable.

These small collections afford smaller museums and heritage sites the possibility of selling a good selection of items without incurring the costs of creating their own products. For larger institutions they offer the chance to try out our products in their shops without financial risk or creative effort!

These collections are sold in mixed packs for ease of merchandising.

Our boxes are lined in black fabric imported from Italy and our glasses cases are lined in micro-fibre.

Your first order will be by pro-forma invoice. Subsequent orders payment will be 30 days from Date of invoice.

CARE OF OUR LEATHER PRODUCTS

Our products are hand made from vegetable tanned sheep or goats leather which makes the colours more vulnerable to light.

Leather is a living material which is not happy in moist or very dry atmospheres. Please be sure to unpack your items out of their protective cellophane wraps and store them in a cool dry place out of direct light. Air conditioning can sometimes cause condensation to collect on the items and this can damage them.

Alternating heat and cold can bring out a whitish bloom which is the polish seeping from the surface. Normally this can be removed by using a soft dry cloth to polish the affected surfaces.

The glazed finish of our items is such that if it is scratched, polish will not repair it. On the other hand it is very soft to the touch and ages very gracefully. Cleaning only requires a soft cloth to polish it.
