Let's thrive in 2025!

THE SOMERSET TOILETRY Co.

Welcome to our 2025 product brochure. Last year was a particularly special one for us here at The Somerset Toiletry Company as it was our 25th anniversary. In celebration of the milestone, we completed 25 charitable acts of kindness for 25 years of business. Needless to say, we had a busy 2024! From hampers to sky dives to limited edition soap bars to beach clean-ups and even volunteering at an alpaca sanctuary, it was a complete adventure! Overall, it was a true pleasure to support charities both local and nationwide in this push and a year we will never forget.

Amid the madness, we won the 'Sustainability of the Year Award' sponsored by The City of London in the Elite Business 100 awards! We are pleased to have made steps in our sustainable journey over the past few years. A key example of this is our move to UK soap manufacturing to decrease our carbon footprint, using RSPO sustainable palm oil in every soap bar we make. As we look ahead, we continue our progress as a business, integrating sustainable practises where possible throughout our supply chain and product offering.

Throughout our now twenty-six-year journey we have been enthralled by the creative process and always strive to create wonderful new gifts, one-offs, and ranges for our customers. This year proves no different as we introduce an array of new products and a new collection into our portfolio, with a

variety of design preferences and pockets in mind. Inspired by our in-house coffee shop, fittingly entitled The Soap Bar Café, we have launched an entirely new range this year called Urban Café. You can now take the warm comfort of our coffee shop home with you and enjoy stimulating aromas of Vanilla Bean, Caffè Mocha, and Caramel Latte. Keep an eye out for some of the vessels in the range that feature real coffee grounds!

In addition to crafting an exciting new range, we spent last year listening intently to our customers desires while casting an eye over new trends in our industry. This encouraged the addition of a new fragrance in both of our leading lines, AAA and Naturally European.

In our beautifully floral AAA range, we welcome 'Hibiscus Flower'. A new fragrance which was universally loved in our trials. Hibiscus Flower is a radiant and tropical fragrance that captures the essence of an exotic paradise. AAA 'Hibiscus Flower' is the epitome of summer in bloom, bright and inviting, with a touch of sensual elegance.

In our timeless Naturally European collection, we are thrilled to launch the 'Sea Kelp & Cedar' collection. Inspired by the South West's stunning coastline, Sea Kelp & Cedar brings together the untamed spirit of the ocean with the warmth of the forest. I find this fragrance to be a perfect balance of

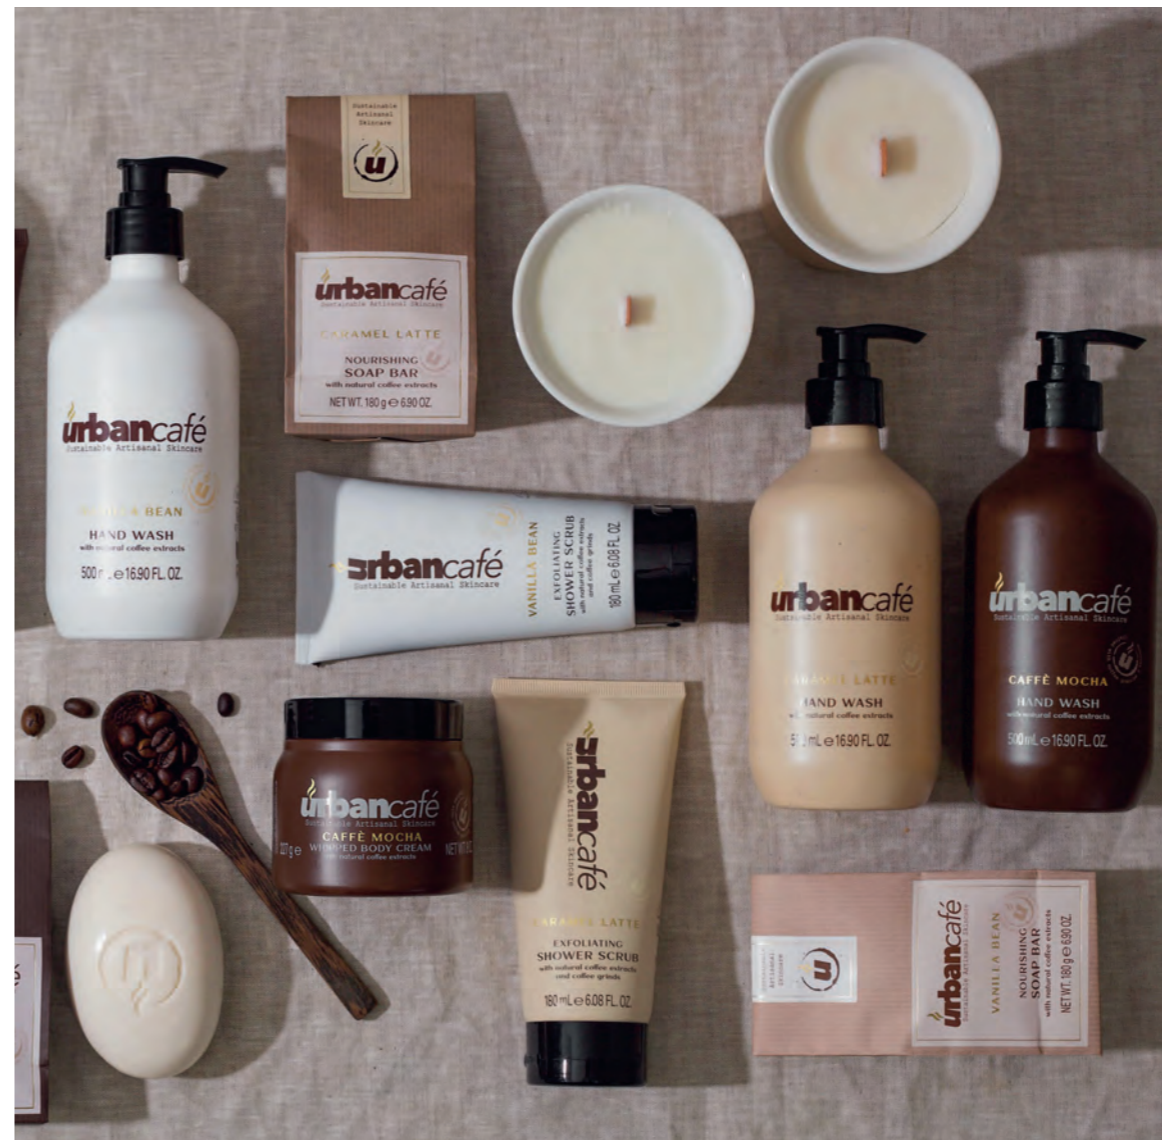

salty freshness and rugged sophistication, making it ideal for those drawn to the wild, untamed beauty of the coast.

Outside of exciting new fragrances for you all to fall in love with, we have also introduced product extensions to our Repair and Sandalwood Country Club ranges. Sandalwood Country Club gets a new fine fragrance, 'Redwood & Amber', and we are thrilled to launch our trending Eau de Parfums (EDTs) in this range. All three EDTs are expertly formulated and designed to be long-lasting and heavenly fragranced.

Following continued positive customer feedback and sales, we have extended our seasonal offering even further this year. Within the seasonal collections you will find both novelty and contemporary designs to cater to various preferences.

On behalf of all the team, we thank you for taking the time to get to know our company. We would be thrilled if you devoted some of your precious shelf space to our products. To our returning customers we thank you for continuing to choose us over the years. We wish you all a spectacular 2025!
