# *about us*

We're a family-owned and run business that has been delighting customers with luxurious home fragrances for over 15 years.

Built on a passion for natural and quintessential fragrances, The Country Candle Co. has always been about beautifully British products. Nestled amidst the serene, chalky hills of Hampshire, in the South Downs National Park and just a stone's throw from Jane Austen's house, we are proud to call the picturesque village of Farringdon our home.

Our Artisan Chandlers hand pour all of our products, and our production facility never slows down, always working on enhancing our ranges and developing new scents to offer you exceptional quality products with a unique and distinctive take on home fragrance.

Our family Directors lead the business with a clear vision for growth within the UK's retail industry and worldwide. We are proud to go the extra mile to support our retail partners with so much more than being just another supplier.

All our products are vegan, palm oil-free, GMO-free, alcohol-free and of course, made here in the UK.

You're in safe hands with The Country Candle Co.

Wax melts are increasing in popularity as an ideal 'entry level' price point product for a consumer to start their journey with our fragrances, be sure to stock some of our wax melt lines to help customers interact and explore the range.

New and improved! Our Pastels wax melts now feature more petals throughout each melt, enhancing the aesthetic for a truly elegant finish. We've also upgraded to 100% fully recyclable card box packaging, featuring a new design and presentation that makes our wax melts even more giftable. *trending scents!*

## RHUBARB & JASMINE

A vibrant blend of zesty orange and tangy rhubarb with a green, citrusy freshness defines the top notes, giving way to a delicate bouquet of white flowers infused with a hint of spicy clove and jasmine's sweetness. The base lingers with rich patchouli, smooth sandalwood, and creamy vanilla.

## LOUDH & CEDARWOOD

Soft floral accords of red velvet and violet leaves unfold into a rich heart of oudh, cedarwood, and a touch of clove, balanced by sweet praline and vanilla. The scent deepens with a warm base of amber, caramel, and woods.

## SEA SALT & FIG

A zesty mix of fig, bergamot, mandarin, grapefruit, and peach top notes, lead into a heart of jasmine, ginger, and nutmeg. Closing with a base of patchouli and coumarin combined with cedarwood and amber.

Combining heart-warming hand drawn illustrations & fresh, nature inspired fragrances to brighten your day.

Emma's dream was always to become an illustrator, a passion which started in childhood and went alongside a keen interest in nature. However, her career took a different path and she worked for over 20 years in the NHS as a Clinical Neuropsychologist. She took the leap 7+ years ago and in that time, has won awards, become a published author/illustrator, established stockists in the UK and beyond, and built up a strong licensing portfolio.

This collaboration celebrates Emma's fun hand-drawn illustrations that are so well recognised, with British country fresh fragrances.
