WE MAKE BEAUTIFUL THINGS
out of sustainable materials

We make beautiful things out of sustainable materials inspired by the natural world we're committed to protect.

Organic cotton, recycled plastics, ceramic, coconut sticks and ethically sourced cork; we only take what the planet is happy to give us and in turn we give back by creating for your home.

LIGA is our business and how we make our living, but it's also our family, who we are, how we live and what we believe in.

CORK RECYCLING

LIGA's UK Cork Recycling Scheme

WHY RECYCLE?

Cork is a unique material that has many uses, from the placemat on your table, to insulation within a rocket, to flooring and all the time it continues to 'breathe' and absorb CO2.

In recent years the cork harvest yields have been lower than hoped. Lack of water impacts on the quality and thickness of the bark that can be harvested and we all know that we have experienced hotter drier summers. This is why cork recycling is so important and one of the reasons it is important to plant more cork oak trees.

THE IMPACT YOU'LL BE MAKING

By collecting used corks and allowing them to be recycled you instantly become an essential part of the global effort to reduce waste and promote a circular economy. The corks we recycle will be made into products.

Equally important for our future we are pledging to plant Cork Oak trees - for every 100 kilos of cork collected, we will plant one cork oak tree. Your involvement will directly contribute to the reforestation and restoration of natural habitats, ensuring a greener and healthier world for future generations.

HOW IT WORKS

Ask us for a cork recycling bin for your store.

Connect with your local community through word of mouth and social media - become the place restaurants, bars and all of your customers come to with their corks. We have over one hundred stores around the UK signed up with a bin instore and it really works.

Once your bin is full, you can rely on us to handle the rest.

Simply contact our sales team at sales@loveliga.co.uk, and we'll arrange a pick-up.
