The design process

We have worked with both small and large clients over the years providing quality bespoke umbrellas and representing their company colours and brand image. We have also worked with clients who have requested bespoke umbrellas with full colour imagery.

Our manufacturing capabilities allow us to offer many different qualities, from low cost through to high end premium umbrellas at prices to suit most budgets.

Our strength is the ability to offer low minimum quantities for most bespoke umbrellas.

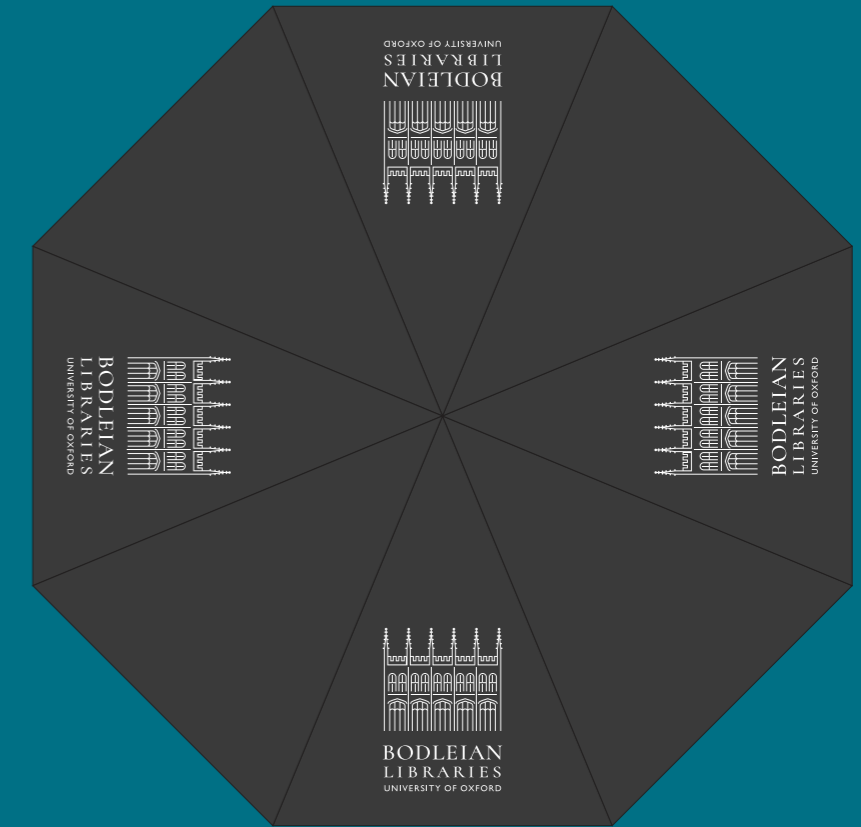

Golf, Classic or Telescopic

We have an extensive selection of umbrella frames, handles and extras to give you a fantastic choice to bring you the very best umbrella for your brand. From Mini Compact umbrellas to huge Golf umbrellas. Whatever the style we are able to work with you to bring your idea to reality.

Designing your umbrella

Whatever your print requirements we are confident we can help! Whether you want a simple one colour logo printed on a single panel on a classic style umbrella or if you have a fantastic all over full canopy design inside and out we can help you.

All of our umbrellas are made to order so we can offer printing prior to production which allows us to print onto the whole visible area of the canopy. This allows you to create the dream umbrella for your brand or retail outlet.

Packaging & Branding

When using corporate branding and logos it can be a general rule that the Pantone must be matched to specific colours. This we can do as we print prior to production so you have a blank canvas to use for your design. We do not rely on stock colour umbrellas.

We can add small finishing touches to your umbrellas such as a motif on the handle or the sleeve for the umbrella. Final packaging could include for compact umbrellas a gift box. Again this gift box would be your design. For simpler packaging it may be a simple sleeve or a zipped purse type packaging.

Whatever your requirements we are always happy to discuss your options available for each type of umbrella.
