Jardinopia

With our children grown up and off having adventures, in 2017, we decided to start one of our own.

Six years on, we still design and manufacture all of our own products in an ethical and sustainable way. Nothing is bought "off the shelf".

In **2018**, our first custom-designed range of plant pot feet, called '**Potty Feet**', was an instant success and grabbed multiple awards.

Since then, our new products have continued to win acclaim. Our **Tealight Fish** are currently shortlisted this year for a category within the celebrated **Gift of the Year Awards**.

In **2022**, we launched our first High Street shop which allows us to test all of our new products before they are released to trade for sale.

In **2025**, we will be opening our brand new showroom for our **Indian Vintage Furniture**.

Jardinopia now sell their products to many of the world's biggest companies in over 80 countries, as well as to catalogues, online retailers, garden centres, gift shops, and high street/mall retailers.

Want better prices for a product?

Talk to us.

Alongside, wholesale, Jardinopia sources own branded “white label” products for over 50 companies and charities.

Our team, working from our offices in Rajasthan, India, have built solid relationships with over 250 factories, across almost all Home, Garden & Gift categories.

India's manufacturing sector is growing fast - and has the potential to reach 1 Trillion by 2025/26

We offer a full turnkey service from design/sourcing, through to Q&A and freight. As we also consolidate all of our orders for all of our companies, we can offer lower MOQ's.

Introducing Munja.....

Our Fairtrade Indian Munja and reclaimed Sari fabric range is artfully crafted by combining a colourful thread, spun from factory fabric offcuts, and a tough, sustainably sourced, water repellent Munja.

The Production Process

- Sustainably grow Munja grass on flood plains and tertiary land across India
- Harvest the grass two or three times a year
- Separate and dry the stalks
- Create the Munja threads for weaving
- Source reclaimed and surplus off cut sari fabric that would otherwise have gone into landfill
- Wash and separate the material into usable strands
- Supply artisans with the raw materials
- Watch decades of experience at work creating unique and unusual products
- The creation of environmentally sensitive products in a fair and transparent way

Made to withstand the UK environment

Munja is a tough Asiatic grass (saccharum munja) whose tenacious culms are used for ropes, twine, and baskets, with great natural water repellent abilities - just like the reeds used in roof thatching in the UK.

- Our Munja is sustainably sourced from across India.
- Fairtrade guaranteed producers, with SEDEX certification.
- Produced by artisans who are paid a fair wage and treated well

RECORD SELLING Bird Nesters

They're totally ROARSOME!

Released in 2024, our exciting new dinoplanters!

Our handmade and handpainted dinoplanters have custom designed and produced by Jardinopia.

Made from resin and crushed stone, our dinoplanters are perfectly designed to make a feature of a beside cabinet, desk or window ledge and add a bit of fun to indoor plants.

Each cavity is deep enough to comfortably houses cactus, succulents, herbs, aloe and other smaller indoor plants.

Our dinoplanters are a fantastic alternative to dull ceramic or plastic pots, making a wonderful gift for children or adults alike.

Made from 100% reclaimed metal, our **Indian Recycled Iron Wildlife Range** has been skilfully crafted by artisans in Rajasthan, in a fairtrade environment.

Designed by Jardinopia, our Wildlife Range is a beautifully unique and ecologically sensitive alternative to plastic décor and will add colour and interest to a garden at any time of year.

The Range offers a selection of **Garden Décor**, (feet can be easily pinned to the ground, or placed on a patio or shingle areas), **Hanging Tea lights** (which can be hung by its chain, or placed on a tabletop supported by its fins/feet, and features a little door to insert a candle) and our **Unique planters**.

As the products are all handmade, they will arrive as shown in the images, but colours may vary.
To protect from the elements in the UK, a lacquer coating finish has been carefully applied to the outside of every product in the Range.

Handmade Fairtrade Tealights

Cane Companions

Protect your vision whilst looking great

Our Cane Companions are a fantastic way of protecting your eyes, and from snagging your clothes on canes or other garden stakes. Each Companion comes with a specially designed cone-shaped silicone insert, to ensure they fit most cane/stake sizes, and stay firmly attached to the cane/stake in high wind. Frost proof and painted with UV resistant paint. Boxed singly.

“We made this just
to dress the stand...
Everyone kept
asking **to buy it!**”

A few years ago, we decided to decorate our stand at RHS Chelsea Flower Show in a way that reflected our quirky and gift-oriented business. We made a “shop dressing” of miniature tools on a jute string and hung it across the stand.....

One customer, after the other, asked to buy it.

Our Tool Garlands were born.... They are made from 100% FSC approved mango wood and recycled metal, and feature five ‘tools’ on a 5 feet long jute string. All Garlands are gift boxed.

Give your pots a *little "lift"*

Award Winning Potty Feet

Our uniquely designed, and award winning Potty Feet are perfect for raising your plant pots off the ground, whilst adding a touch of style

Presented in sets of 3 and boxed neatly within a recycled kraft card gift package, our Potty Feet make an ideal present for any gardener, or any indoor plant enthusiast.

Made from a unique formula of crushed stone and poly-resin, our Potty Feet are designed to take any weight of pot and are frost proof, making them suitable for indoors or outside, all year around. Our Potty Feet are handmade and hand-painted using a lead free and UVA light resistant product, ensuring longevity of colour.

They also make the perfect gift for any occasion, creating an all year round sales opportunity.

So why give your pots a 'little lift'?

- Improve air circulation for healthy root growth
- Prevent water-logging
- Reduce frost damage to your pots by improving drainage
- Prevent unsightly decking or patio rings
- Prevent staining to your carpet, wooden or tiled floor
- Deter unwanted pests from setting up camp under your pots

Eco-pots - 100% organic

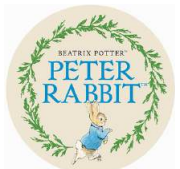

Our uniquely designed Bamboo Eco-Pots makes it easier than ever to be kind to the environment whilst gardening.....

Our Eco Pots use two sets of materials - Bamboo, which is fully sustainable and recyclable, and recycled plastic bottles.

Our **Bamboo** Eco-Pots are made from sustainable, bamboo fibres and resin that comes from naturally occurring organic compounds. They are free from petroleum-based plastics and BPA's and utilize eco-decals, adding that little bit of glamour to your herbs, vegetables or flowers. When you need to dispose of them, they can be shredded or crushed and put on the compost heap, where they will naturally decompose.

Our **fabric based** Eco-Pots are made from 100% reclaimed plastic bottles, making use of the millions of reclaimed plastic bottles littering our streets, oceans and countryside. Our fabric pots are also breathable, and feature grommets on the bottom to allow drainage. They are also lightweight, and once easily washed out, can be folded and stored easily.

Our wonderful handmade acacia wood range, is crafted by skilled artisans, using FSC approved timber within a fairtrade environment.

Designed for Jardinopia, our acacia wood range offers a carefully curated collection of vases and shelves, all created by skilled artisans in Northern India. The acacia wood is finished with a protective lacquer coating to bring out the beauty and patina of the wood.

Acacia Wood Tower Vases

Our beautiful vases are made by placing blocks of acacia together into a 'tower' shape. Once formed, the vase is hand sanded to achieve each individual shape, and finished in a protective lacquer coating. Felt pads are added to the base to protect delicate surfaces. Our vases are ideal for holding dried or silk flowers, or as a statement piece for any room in the house. Each vase comes individually boxed.
