PINE FOREST

Step into the stillness of a winter woodland with Pine Forest. Fresh eucalyptus opens the fragrance, leading into a heart of Scots pine, cypress, juniper berry, lavender, and a touch of nutmeg. At the base, grounding cedarwood lingers, creating a scent that is both invigorating and deeply restorative - a true breath of nature.

Our bestselling Pine Forest fragrance is now available in a premium glass jar, presented in a stunning gift-ready box that unfolds to reveal a delicate woodland tree design.
