

all CREATURES®

carte blanche 

All Creatures combines beautifully soft materials and quality craftsmanship. Each character is individually named and features unique real-life characteristics to create a range of lovable soft toys that are extra huggable and bring joy to children and adults of all ages.

We recognise the importance of great quality soft toys which can be treasured for many years to come. Each lovable All Creatures character is crafted using premium fabrics and meticulous attention to detail, ensuring that each and every character comes to you without a stitch out of place.

From the shaggy fur of Hamish the Highland Cow to the pink paws and tiny toes of April the Hedgehog, even the tiniest detail is considered when creating each and every character.

We capture the essence of what makes each animal unique and combine that with some All Creatures magic to create collections you can't help but fall in love with.
