Our Plating Quality

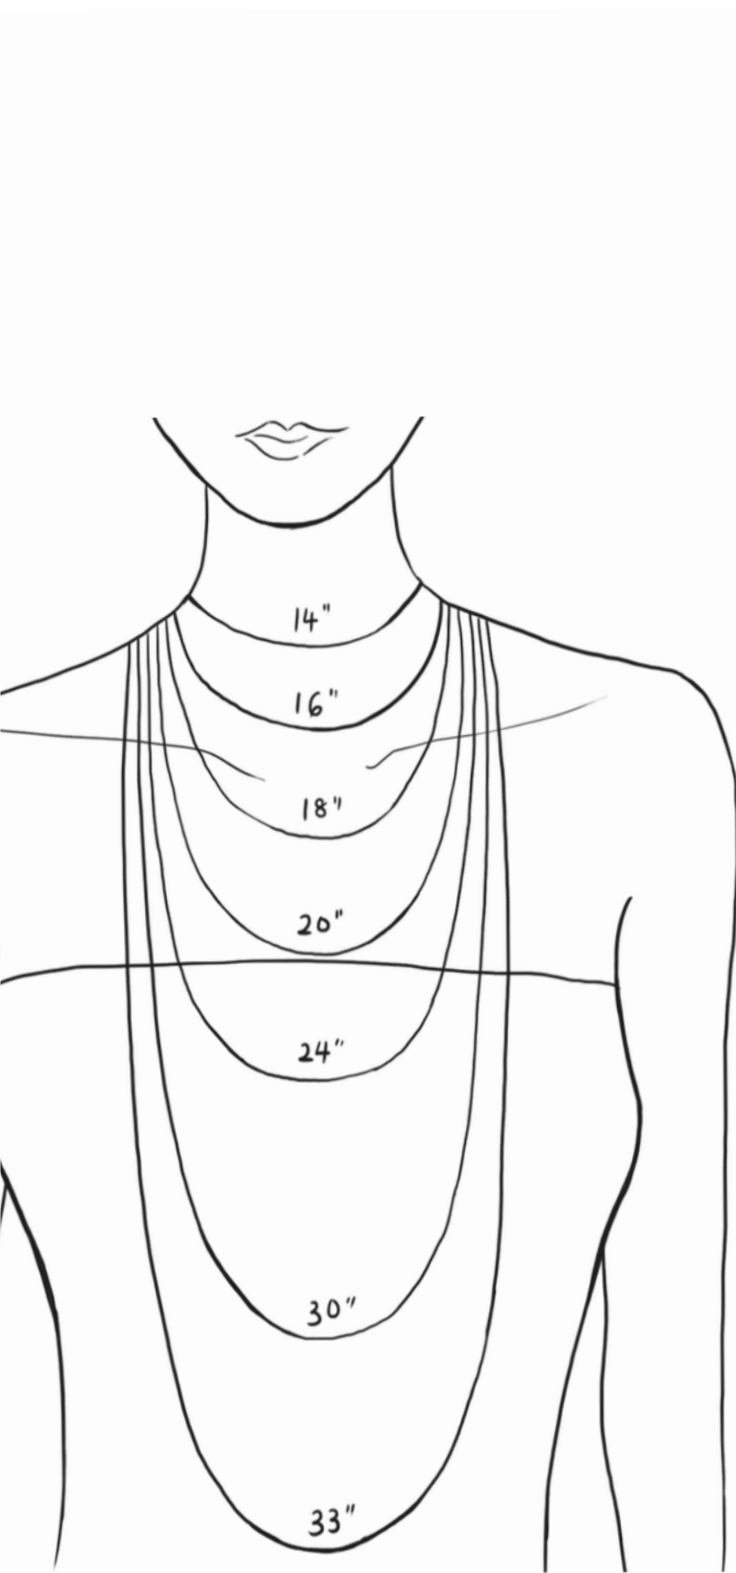

Each piece is finished with high-quality 18k gold plating over a brass base metal, chosen specifically because brass binds exceptionally well with gold plating, resulting in a smoother, more durable finish..

We use 3 microns of 18k gold plating, resulting in a rich, long-lasting finish with exceptional colour depth and durability. This premium level of plating ensures the pieces maintain their brilliance over time, even with regular wear.

Trusted by our long-term retailers, our plating ensures your customers enjoy pieces that feel elevated and remain beautiful over time.
