

Goose  
Island

SPRING/SUMMER EDITION

## ABOUT US

Welcome to Goose Island. Founded by Karen Molineux in 1993.

With our head office based in Swansea, South Wales, Goose Island is a family run business that has been successfully sourcing, importing and retailing high quality Italian ladies fashion for over twenty years.

We have a keen eye for quality and constantly strive to create a unique range of women's clothing that is comfortable, affordable, stylish, and not to mention one size!

Regular visits to our Italian suppliers take place frequently allowing us source the latest prints, fabrics and designs; keeping our ever evolving brand up to date and on trend.

As a brand we have become associated with individuality, quality and comfort, and have consequently created a loyal and broad customer base throughout the UK and Mainland Europe. Our relaxed, layered style with intricate fabric combinations, beautiful prints and elegant feminine shapes, compliment any occasion.

Lots of Love, your Goose Island Wholesale Team.

# NEW ARRIVAL

## A Guide to Effortless Everyday Styling

# NEWNESS

Designed with intent and guided by insight, our new Surreal Summer collection has been carefully curated using global colour trends. Drawing inspiration from key catwalk moments, we've translated high-fashion direction into wearable day-to-day pieces, selecting bold new patterns and expressive prints that feel current yet timeless.

The result is a collection engineered to elevate shop windows, capture attention at first glance, and create a strong visual story that turns heads and drives customer engagement.

The collection is brought to life through a rich mix of fabrics, including breathable cottons, effortless linens, and fluid silks that move beautifully through the season. These materials have been carefully chosen to enhance both comfort and visual impact, giving each piece a premium feel that customers will recognise instantly.

|An expanded selection of styles have also been added and designed, to encourage multiple purchases, from statement co-ords and lightweight jackets to refreshed denim pieces and versatile skirts, alongside many other summer-ready silhouettes.

# SPRING/SUMMER

Step into a Surreal Summer - A new range designed to cut through the noise and command attention on the shop floor. This collection is driven by bold colour stories, unexpected details, and confident silhouettes that feel fresh, playful, and unmistakably modern. Every piece is made to stop customers in their tracks and invite a closer look.

The range balances vibrance with wearability. Think elevated essentials with a twist: strong hues, graphic accents, and textures that add depth without sacrificing comfort.

# STYLISH

This collection represents our most stylish and classic range to date, designed with a clear focus on timeless appeal elevated by modern detail.

The result is a confident, polished collection that feels effortlessly wearable yet unmistakably elevated - offering retailers a range that will resonate season after season while still feeling fresh, current, and highly covetable.

## HOW WE WORK

Initially starting in Italy, designs and styles are carefully chosen to source the next collection every 6 weeks. We provide 8/10 new collections every year.

Once returned, our 'sample kit' is then labelled and photographed for catalogue/lifestyle images.

We check over garments for size guide and fabric quality. Once pictured, the whole sample kit is collected and showcased across the UK.

At this stage, products now become available via the online website for 'pre-order'. By now products have been ordered from Italy but are NOT yet available at the warehouse.

The website highlights categories such as, Summer, Autumn, Christmas etc.

Once available, the wholesale team get to work on getting all orders hand picked, before being boxed up and sent out.

As the season progresses this is where decisions are made at which styles are worth re-ordering and to also source any new products that could be added to the collection.
