MEET THE MAKER...

Kids love to explore and to play. Which, more times than not, means they get grubby.

Grubbybub is an Australian owned and operated family business aimed at keeping kids happy, active, outdoors and grubby – without sacrificing the sanity of their parents and carers.

Our range of products are designed to keep our little grubs warm, dry and clean while benefitting from that all-important outdoor, sensory and messy play.

Grubbybub is my creation, a NSW Central Coast mum, whose laundry pile was larger than life. The aim was for a range of products that are more than just a single use item, and to keep it as accessible, as reusable and as sustainable as possible.

None of this would have happened without my family. My wonderful husband/IT guy who spent countless hours learning to code, and slaving over my website demands. And of course, our three product testers!

Gally

Things You Should Definitely Know

THE OUTERWEAR

- Heat welded seams for total waterproofing
 - In-built breathability
- Machine Washable: avoid detergents for longest use
- Reusable selling point: multi-name name tag
 - Hidden seams for sensory comfort
