

BILL SKINNER

Spring/Summer 2026

Bill Skinner Studio

The foundation of the Bill Skinner brand is rooted in Bill's deep appreciation for creativity, craftsmanship, and quality.

Each piece begins as an idea, imagined by Bill and the team in the heart of Kent, before being carefully developed into a characterful miniature. Finished by hand with meticulous enamel painting, every design is created to tell a story, and to be cherished and adored for years to come.

Spring/Summer 2026

Our Spring Summer collection welcomes a new season of stories inspired by gardens in bloom and timeless tales. From spring flowers and vintage roses, created in collaboration with influencer and author Jordan Rose, to the playful Peapod Collection inspired by *The Princess and the Pea*, each piece captures the magic of new beginnings.

Familiar favourites return with a seasonal twist, including the Strawberry Mouse Collection, a summery take on our much-loved Blackberry Mouse, alongside new apple blossom designs and charming additions to existing stories. Thoughtfully crafted, these pieces celebrate the joy of growth, colour, and storytelling in bloom.

Little Treasures

From delicate flowers to tiny watering cans and golden bees, each piece in the Little Treasures collection is inspired by the quiet joys of the outdoors; the tools we tend with, the flowers we nurture, and the creatures we share it with.

Each piece of the Little Treasures collection is presented in beautifully illustrated, **ready-to-gift** packaging; perfect for birthdays, thank-yous, or just-because tokens of thought.
