OPTION 1

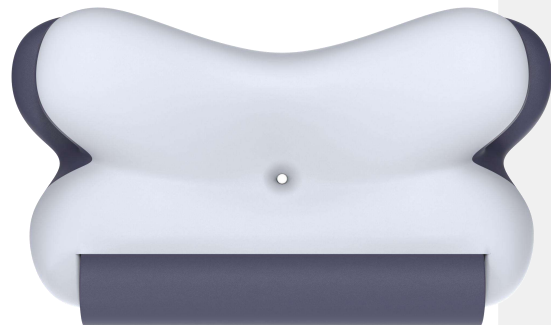

设计方案一

A two-in-one detachable combination pillow, consisting of a multi-position pillow core and a cervical traction rod

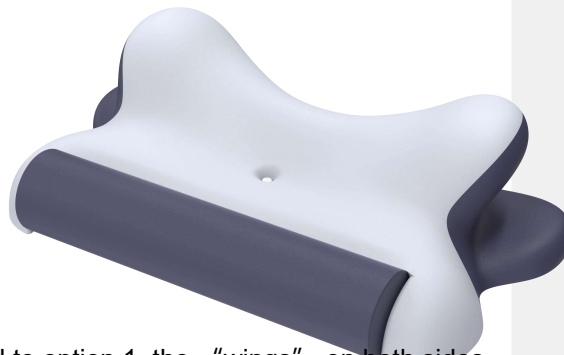

The pillow core can meet the needs of multiple functions and various sleeping positions

OPTION 2

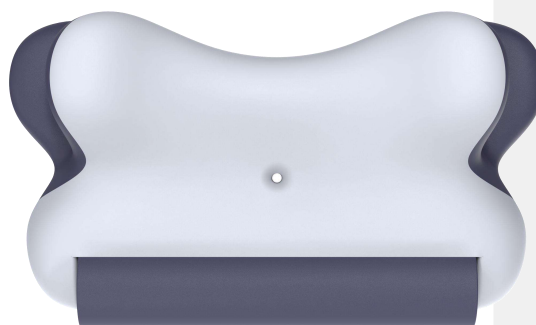

设计方案二

Compared to option 1, the "wings" on both sides are raised higher, making it more convenient to place your arms when sleeping face down or on your side.

This design offers unrestricted freedom for a comfortable sleep
