

Add More Value to Your Conference with BIO Partnering™

Help your attendees exceed their business development goals and connect with leaders, investors and innovators across the industry - all in one place!

The BIO Partnering™ system streamlines B2B meeting opportunities by empowering users to collaborate efficiently in an easy-to-use platform, optimized for organization and functionality.

BIO Partnering™ powers partnering events throughout the life sciences industry, meaning your attendees benefit from access to previously created profiles and meeting data.

With BIO Partnering™ your attendees can:

- Customize their company and delegate profiles to include assets, services and market products, highlight objectives, interests, etc
- Browse companies in attendance and use advanced search features to identify and 'favorite' prospective partners
- Send and accept meeting requests
- View conference programming
- Manage their partnering meeting schedule and add conference sessions
- Utilize the mobile app for partnering management on the go
- Attend meetings in-person, virtually or hybrid, according to your conference needs

Contact us at

for more info.

Increase your bottom line with sponsors!

BIO Partnering™ provides a unique opportunity to enhance your ROI by offering an outside organization the chance to sponsor on the platform. It's a promotional opportunity for the sponsor and a revenue generator for you!
