

# ORDER FORM - Power Requirements for Hospitality Units, manufacturers own on stand chargers and ancillary items.

Deadline for all orders must be made by **Monday 18th May**

## Request for Main Power Supply to stand for hospitality units on the Steering Pad

Please note this page is not to be used to request power for CCIA/ VPG EV Solutions provided vehicle chargers.

Car Manufacturer/Agency

Contact email address

The following power supplies are required on our stand at Company Car in Action.

Please note: All electrical costs will be invoiced directly by CCIA (Bauer Media). All supply cabling will be run to a corner towards the Centre of the steering pad for Manufacturers that are sited within the steering pad or to the rear of the stand for those sited on the Bridport grass area. Should you require cabling to a specific location, please submit a stand plan ahead of the event and our power providers will work towards this.

**Please select from below, one supply from either A or B**

**A - Single phase 230V terminated in (blue) C form socket outlet to the required loading**

Tick	Power requirements	Cost to supply power	Cost	Quantity & equipment to be powered
<input type="checkbox"/>	16amp 230v terminated in blue CEE 3 pin socket	£255.00	<input type="text"/>	<input type="text"/>
<input type="checkbox"/>	32amp 230v terminated in blue CEE 3 pin socket	£290.00	<input type="text"/>	<input type="text"/>
<input type="checkbox"/>	63amp 230v terminated in blue CEE 3 pin socket	£330.00	<input type="text"/>	<input type="text"/>

**B - Three phase 400V terminated in (red) C form socket outlet to the required loading**

Tick	Power requirements	Cost to supply power	Cost	Quantity & equipment to be powered
<input type="checkbox"/>	16amp 400v terminated in red CEE 5 pin socket	£325.00	<input type="text"/>	<input type="text"/>
<input type="checkbox"/>	32amp 400v terminated in red CEE 5 pin socket	£475.00	<input type="text"/>	<input type="text"/>
<input type="checkbox"/>	63amp 400v terminated in red CEE 5 pin socket	£660.00	<input type="text"/>	<input type="text"/>
<input type="checkbox"/>	125amp 400v terminated in red CEE 5 pin socket	£960.00	<input type="text"/>	<input type="text"/>

**Total Power Supply Costs**  
(Hospitality Unit only)

If you have any specific requirements you would like our power providers to be made aware of, please detail these below in the comments box. Changes on site will not be possible

I understand that all payments for electricity usage will be invoiced prior to the event direct from Bauer Cosumer Media to the manufacturers or their representative.

Exhibitor: Yes  No

# ORDER FORM - On Stand Charging Units Only

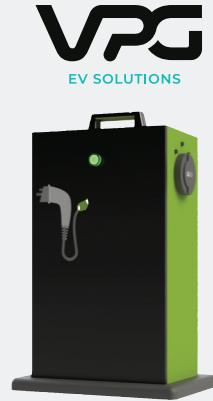

Please also include a **stand plan** of where you would like CCIA / VPG EV Solutions provided chargers on your stand  
 Deadline for all orders must be made by **Monday 18th May**

## Request for **Electric Vehicle Charging Points** to be located on your stand

Please note that VPG EV Solutions has commissioned the UK's first liquid-cooled 400kW Kempower Satellite Chargers at UTAC Millbrook – believed to be the fastest chargers in the UK. You will have the option to use this new facility during the live show opening times for any RAPID CHARGING requirements. For your information, on site at Millbrook, this facility is known and referred to as Hammerhead. A UTAC Follow me will be required to this location if this is needed during show hours.

This is in addition to the RAPID CHARGING HUB as per previous years which will be situated adjacent to the main steering pad. With this in mind, please consider this additional infrastructure when ordering your on-stand chargers below. The Rapid Charging hub will work on a first come first serve basis during live show hours.

Charging points to be provided on stands by **VPG EV Solutions**, official supplier of charging points for CCIA 2026.

Car Manufacturer/Agency

Stand Number

Contact Name

Contact e-mail

Contact phone number

I wish to request the following charging points:

	Quantity required	Power Distribution Charge Per Unit	Cost
<b>1 x Dual-Port AC Charging unit</b> (Provides 2x 7kw charging which will mean you can plug 2 vehicles into one charging unit. 1 Charging unit requires 1x 63amp 400v terminated in red CEE 5 pin socket)	<input type="text"/>	£660.00	<input type="text"/>
Fixed power contribution charge (including HVO fuelled generators to supply all your electrical requirements) <small>This costs covers the basic provision of event power including HVO Fuel generators and the provision of the rapid charging hub during CCIA 2026.</small>		£649.00	£649.00
<b>Total Charging Costs</b>			<input type="text"/>

**PLEASE NOTE:**

- The supply of on stand charging posts is sponsored by VPG EV Solutions.
- All rapid chargers will be positioned in the CCIA RAPID CHARGING HUB and not on individual stands, the hub will be positioned on the steering pad for easy access.
- Extensive charging infrastructure will be available to all exhibitors out of show hours. In order for us to maximise utilisation of these facilities onsite it is essential that we understand fully your overnight charging requirements, both pre show and live days. **Overnight charging must be booked prior to the show.** Katie Wiles will be in contact with you to discuss your requirements. Please see attached separate document for overnight charging requirements. Please note that we can only agree to a maximum of 80% charge for any vehicle.

To ensure compatibility please confirm make and models of cars to be charged:

I understand that all payments for electricity usage will be invoiced prior to the event direct from CCIA (Bauer Media) to the manufacturers or their representative.
