SMUG.™

A REFINED COLLECTION WHERE BEAUTY SLEEP BECOMES PART OF THE RITUAL.

A refined collection where beauty sleep becomes ritual. Lustrous satin scrunchies blur the line between hair essential and fashion accessory, while signature satin sleep masks glide softly against the skin.

The satin pillowcase completes the setting, helping to reduce friction for smoother-looking hair and skin by morning.

The satin turban extends the ritual, enveloping the hair in softness to help preserve styling and minimise breakage overnight.

Finished with the Cloud padded collection, contoured, cocooning, indulgently plush, the edit is a celebration of texture, softness and considered design.

SATIN EDIT

THE CONTOURED

CONTOURED FOR COMFORT, ENGINEERED FOR DARKNESS.

A sculpted design that protects lashes and reduces eye pressure, allowing eyes to open and blink freely without compromise.

Featuring an adjustable strap for a personalised fit and an ultra-lightweight feel, this iconic design, the very first SMUG model, redefined modern sleep accessories and transformed rest into a considered ritual.

TRAVEL, REFINED WATERPROOF. STRUCTURED. CONSIDERED.

Designed to organise beauty essentials with ease, the SleepSmug washbag and toiletry case combine practicality with elevated design, made for weekends away, long-haul flights, and everything in between.

WELLNESS EDIT

A curated collection designed to elevate everyday rituals. From targeted beauty sleep solutions and skin-supporting patches to aromatherapy mists and thoughtfully designed accessories, each piece is created to support rest, recovery, and reset.
