faceLITE LED Light Therapy

Pain-Free • No Downtime • Clinically Proven

Why Choose faceLITE?

Consumers Expect More From Skincare

Faster results and technology beyond traditional routines. From the original pioneers of LED Technology; iSMART Developments with over 25 years' experience.

iSMART Developments fuse cutting-edge innovation with deep expertise to deliver world-class health and wellness solutions.

Every device is engineered to exceed the highest international safety standards. At faceLITE, we don't just develop products; we define the future of light-based therapies.

As The LED Market Advances...

faceLITE leads research into clinically proven wavelengths and their multi-layer skin benefits. We create products that support your skin rituals, enhance relaxation, and deliver proven results for skin health.

faceLITE PRO

The LED Upgrade Customers Have Been Waiting For.

- 5-wavelength face mask, full-spectrum skin rejuvenation
- Wavelengths: 610 nm, 630 nm, 660 nm, 850 nm and 1070 nm
- faceLITE PRO is our most advanced, clinically backed home-use LED system

This **award-winning mask** combines five targeted wavelengths, each chosen for its proven effect on specific skin layers. It delivers visible improvements in skin brightness, wrinkles, pigmentation, firmness and overall skin vitality.

Scientifically engineered for multi-layer skin rejuvenation, it brings professional-level results into an adjustable, flexible 10-minute treatment that fits daily life.

High-performance, clinically proven results that elevate home skincare and support skin longevity and wellness.

Built for dramatic vitality, definition, and radiance, from the pioneers of LED technology.

faceLITE PRO isn't just new — it's next-level.
