WE CAN!

"The objective of the organization We, The World is to facilitate cooperation on a global scale amongst groups and individuals dedicated to implementing solutions to the many challenges we face on the planet at this time."

- Archbishop Desmond Tutu, Nobel Peace Laureate

Imagine the Change

WE - A global campaign of We, The World to unite and amplify the efforts of people, organizations and movements working for the common good.

Imagine creating a **Change Agent Network** of over 50 million people who actually work *collectively* to transform our country and our world.

Our WE Campaign goal is to **create unprecedented cooperation** and coordination between the world's transformative movements, and mobilize them for real and lasting change.

"We're talking about getting out of the 'I' and getting into the 'WE' - an understanding that there are none of us who will be safe or free, or living with wellbeing, until that is true for all of us."

Participant, 11 Days of Global Unity**
