About Omnipresent Media

Founded by an outstanding international team of creatives, Omnipresent Media is a multi-channelled entertainment & educational television network, where our motto is, 'entertainment made consciously'.

On our network you can experience brand new films, entertainment series, documentaries and more, all of which have been created by emerging artists, writers, actors, thought and youth leaders alongside our channel identity.

Our network also provides ancient indigenous knowledge, wisdom and spiritual expansion incorporated into modern day learning techniques.

With leaders such as Chief Arvol Looking Horse and more, the aim is to introduce this knowledge to the next generation, as well as the world at large.

We have also initiated a funding opportunity aimed at helping creatives who have been affected by the Coronavirus pandemic, to achieve their productions which will be aired on our network.
