

**For landowners, for tenants,
for producers — straightforward,
specialist advice for agriculture**

ledinghamchalmers.com

Working across the farming, forestry, renewables, salmon fishings, estates, and food sectors — and with a focus on resilience and building a sustainable future — we are trusted strategic advisors on the decisive issues that matter to our rural clients.

We provide a full legal service including strategic business planning, succession, and dispute resolution as well as advice on the purchase and sale of rural property, renewables, land development, agricultural leases and land ownership.

Consistently attracting external recognition for the work we do, we're recognised in the prestigious Legal 500 and Chambers UK directories.

The team

As well as a presence in Aberdeen, Inverness, and Edinburgh, we're the only practice in Scotland with offices in both ANM Group's Thainstone Centre and United Auction's Agricultural Centre in Stirling.
